A DEMONSTRATION OF NAVAL FORCE OF UNITED STATES

IS BEING PLANNED BY PRESIDENT ROOSEVELT IN NEAR FUTURE.

AS A GUARANTEE OF PEACE

To Show How Quickly Fleets Can be Mobilized to Protect Coasts in Case of War.

Washington, July 8.—The war spirit is growing. Naval and army officers are using the Japanese situation as almost their sole topic of discussion. Opinion is divided as to the outcome of sending a fleet of battleships to the Pacific.

"If Japan thinks she can whip the United States," remarked a prominent naval officer today, "I should not be surprised if she were to regard a projected movement of a battleship fleet to the Pacific as a hostile act, and declare war. If after measuring her own strength, financial and physical, she decides that she might get the worst of it she will accept the movement as it is intended by the United States, and make no fuss."

"But the traditional friendship between the two governments has been broken. They will never again be on the same close terms as heretofore. The incident will rankle. Some day, especially if the United States should become involved with any other power, the feeling aroused now may burst out into open enmity."

"The United States will try to break a record in sending a fleet around Cape Horn. For this reason, there will be few, if any, visits of courtesy en route."

DEWEY'S VIEWS.

Utica, N. Y., July 8.—In an interview today, Admiral Dewey, chairman of the General Naval Board, frankly admitted that the real reason for sending a battleship fleet to the Pacific was to maintain a balance of sea power in the Pacific ocean. For the first time the mask was thrown aside and the real reason for Uncle Sam's move frankly stated. Dewey insisted of course, that the movement of the fleet to the Pacific is a real peace move. He said the defenses on the Pacific side are not up to those on the Atlantic, and that the nation which controls the sea controls the situation.

He closed with this significant statement: "I do not think this country will become seriously involved with any power. But if trouble should come, it is well to be prepared."

Oyster Bay, N. Y., July 8.—While it is asserted here with emphasis that there is no foundation for apprehension of trouble, immediate or future, between the United States and Japan, the proposed demonstration with the fleet can be looked upon in no other light than that President Roosevelt intends to use the American navy for exactly the purpose for which he has advocated its augmentation—a guarantee of international peace.

Rear Admiral Brownson came over to Oyster Bay Friday to take lunch with the President, professing entire ignorance of the maneuver plans. When he left Sagamore Hill to take the train for Washington, the admiral had one thought which he wished to emphasize—that it was desirable and important to demonstrate to the world how quickly the American navy could transfer its fighting strength from one ocean to the other. This was distinctly an addition to the president's previous statement issued through Secretary Loeb, wherein the object of the maneuver was said to be an exercise movement for the benefit of the navy, to perfect its training in fleet exercise on an extended scale, the purpose and effect of plan being for the benefit of the navy alone.

What came from President Roosevelt through Admiral Brownson is decidedly a different and much broader design. President Roosevelt has been consistent in advocating a large navy as the surest guarantee of peace between the United States and all foreign powers. Heretofore a large navy has been reckoned solely from the point of view of the number of ships, their tonnage, armor, guns and fighting capacity. With this idea the American navy has grown steadily, step by step. To the somewhat uninteresting array of ships and tonnage, President Roosevelt now proposes to give the world a somewhat startling demonstration of what the American navy is capable of doing to protect either or both of the extended shore lines of the United States. As Admiral Brownson said, "there is no time like the present for the demonstration," a time when

JACOB RILS TO WED MISS PHILLIPS

President Roosevelt has written a letter to the father of Miss Mary Phillips, of St. Louis, in approval of the engagement of the young lady to Jacob A. Rils, whom the President long ago called "the most useful citizen." Miss Phillips has for many years assisted Mr. Rils in his literary work, and she has become indispensable to him in more ways than one.

The United States is at peace with every nation.

JAPAN IN DEBT

Is In No Position to Engage in War. Foreign Comment.

Tokyo, July 8.—Confirmation of the report that a powerful battleship squadron would be sent to the Pacific has been generally received with calmness, though there is some surprise in certain quarters well versed in diplomatic niceties. Though officially stated that the dispatch of the battleships to the Pacific is not directed towards Japan, it is felt here that it is most inopportune when an attempt is evidently going on to impair the traditional friendship between Japan and the United States. Though the slightest apprehension is not entertained here, it is thought it would be better to defer at this moment anything that would be open to the slightest suspicion of provocation, especially when a portion of the American public is thought to be oversensitive over the present state of the relationship of Japan and the United States, brought about by prejudice against the Japanese in a section of the latter's domination.

London, July 8.—The present tension between the United States and Japan is exciting the keenest interest among all the European diplomatists. None of them, however, believe that it will reach the stage of warfare, because the heavy burden of debt Japan is carrying as a result of her failure to obtain indemnity from Russia forbids her embarking on a similar costly enterprise in the next decade. It is recognized, nevertheless, that the United States is acquiring the enmity of Japan as one of her national assets which may prove a handicap in the event of trouble with any other power. Great Britain now finds herself in an embarrassing position also, because she is obliged to stand between her colonies and her ally in the matter of anti-Japanese laws. The Transvaal had just put into operation a law regulating the entry of Asiatics, which applies to Indian subjects as well as to the Japanese and the Chinese, and which compels them to submit to an examination and registry with thumb prints, like criminals, which is exceedingly irritating to them.

Paris, July 8.—A significant feature of the French comment on the Japanese-American situation is that the possibility of trouble occurring is considered only from the side of Japan. The Solei regards the San Francisco incident as a mere cloak to the real issue, which, it thinks, may be traced to the determination of Japan to enforce her commercial supremacy in China and the Pacific. "For Japan, now or never," it adds; "in 10 years, when the American fleet's predominant navy is unchallengeable and the Panama canal has been completed, it will be too late."

Berlin, July 8.—The conviction of an ultimate conflict between Japan and the United States appears to be widespread in Germany. It is one of the subjects certain to be referred to wherever diplomatists and military and naval officials and others accustomed to follow international politics meet. The newspapers agree that President Roosevelt is earnestly trying to satisfy the Japanese requests. They agree also that Japan's nothing unreasonable. They recognize that the present difficulty lies in the question of race, the economic antagonism of the Californians against the Japanese and the constitutional impossibility of federal coercion. It is believed by many that the group of ruling statesmen in Japan are preparing to fight the United States for the mastery of the Pacific regardless of the San Francisco incidents.

The Hague, July 8.—The sentiment of the delegates to the peace conference regarding the question that has arisen between the United States and Japan is that the situation is unfortunate for both countries, as the original incident causing tension between the two countries is disproportionate to the grave results which may follow for the demonstration, a time when

THREE KILLED

AND MANY OTHERS WERE INJURED IN STREET CAR ACCIDENT.

Car Goes Over an Embankment in West Virginia—Other Accident in New York.

Clarksburg, W. Va., July 8.—Two persons were killed, several fatally injured and a dozen others seriously hurt when a streetcar on the Grassilli division of the Fairmont and Clarksburg Traction company's system jumped the track and crashed over an embankment. The dead: Miss Grace Markert, Clarksburg, skull crushed; W. T. Gray, Clarksburg, head crushed. All the injured were taken to hospitals here. The cause of the accident is not known at present.

Schenectady, N. Y., July 8.—One boy was killed, another was fatally hurt and two others seriously injured as the result of a streetcar accident. The victims were members of a baseball team. The lads were riding on the running board on the wrong side of the car when a heavy closed car swung round a curve, sweeping Andrew Dulewski off the running board and throwing him under the wheels. A lad named Smith was crushed.

TELEGRAPHERS WILL POSTPONE ACTION FOR WEEK

Chicago, July 8.—Telegraph operators employed by commercial telegraph companies in Chicago will not strike for a week at least. At a meeting it was decided to postpone action for one week. Four members of an executive committee of the telegraphers' union addressed the meeting, asking the men not to walk out while negotiations were pending under Labor Commissioner Neill, looking to a settlement by arbitration. There were many telegraphers in the meeting who clamored for an immediate strike, but the final decision was that Mr. Neill should be given another week in which to carry on his peace negotiations.

Train Strikes Automobile.
Keypoint, N. J., July 8.—Christopher Horand, a wealthy silk manufacturer of Paterson, was killed, and other members of his family injured when a locomotive struck and demolished an automobile in which the party was returning home from Asbury Park. With Mr. Horand were his wife, daughter Ruth and his nephew, Rheinhardt Blinder. All but Mrs. Horand were thrown from the machine. Blinder's skull was fractured and his condition is serious. Ruth Horand escaped with a sprained wrist and bruises, while her mother suffered from shock.

GOULD'S PETITION WAS OVERRULED

New York, July 8.—Gould's application to have stricken out certain allegations in the complaint of his wife, Katherine Clemens Gould who is suing him for separation, on the ground that they are scandalous, was today denied by Justice McCall. It is alleged the scandalous charges Gould wished eliminated, declare Gould has had his wife followed by spies and detectives wherever she went and that he maintained illicit and immoral relations with women of bad character.

MAYOR SCHMITZ GETS 5 YEARS

San Francisco, July 8.—Mayor Schmitz was sentenced to five years in the penitentiary today for extortion.

WITNESSES SAY IN DEPOSITIONS THAT ORCHARD LIED

Boise, Idaho, July 8.—The defense in the Haywood trial today read depositions taken in California to prove that Orchard lied when he said he blew up Bradley's flat in San Francisco with dynamite. The deposition said that the flat was blown up by a gas explosion. The prosecution objected to the admission of much of the testimony but the judge ruled with the defense on all material points.

Boise, Ida., July 8.—Attorneys for William D. Haywood completed details of plans for the final week of the defense, which began today. Interest in the trial this time centers in the appearance of the stand of Haywood, who, it is said, has been the moving force in the Western Federation of Miners for several years, and one of his co-defendants, Charles Moyer, president of the miners' organization. The third defendant in the case, George A. Pettibone, will not take the stand, it is said, until his son comes up. Steve Adams, whose recent trial for the murder of a man in northern Idaho resulted in a disagreement of the jury, and who has been variously implicated by Harry Orchard in many of the latter's crimes and alleged conspiracies with the leaders of the Western Federation, is still in Boise jail, available as a witness for the defense, but it has been definitely decided that he will not be called to the stand. The prosecution still says it would welcome such a move, as the appearance of Adams on the stand might open the way for the introduction of a portion at least of Adams' confession, which he later repudiated.

SENSATIONAL CHARGES AGAINST STATE OFFICERS

Columbus, July 8.—Charging that the State School for the Blind is being conducted on illegal financial and economical principles, and that the board of trustees, of which H. P. Crouse of Toledo, is president, is running the institution without regard to the public welfare, that everything is in disorder and that he as superintendent, is a mere figurehead, Dr. Edwin N. Brown, has prepared his resignation, which he will insist that the trustees accept when they meet in Columbus next Monday.

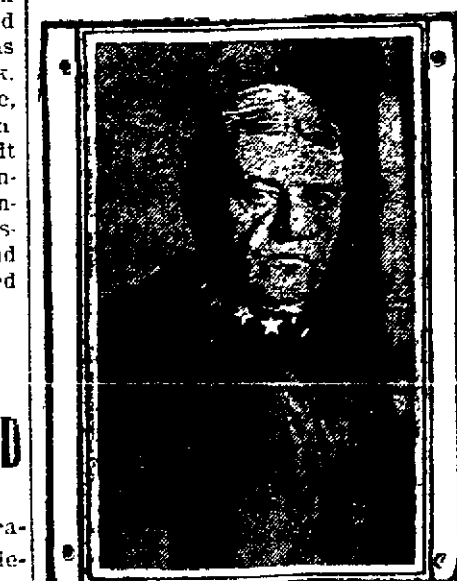

STUDENT ASSASSINS.

Pekin, China, July 8.—Dispatches from Nanking state that Governor Enning, of the Nanking province, was assassinated by students. The director of police who attempted to rescue the governor, was also seized and killed. Troops have been dispatched to the province to arrest the assassins.

TEACHERS' CONVENTION.

Los Angeles, July 8.—This city is entertaining the pedagogues of the nation. It is expected that 25,000 teachers will be here when the formal opening takes place tomorrow.

EVANS IN COMMAND OF PACIFIC FLEET

Rear Admiral Evans' sixteen big battleships, the Pacific fleet of the United States, will go to the Pacific.

Alex. Archi, who had his spinal column severed by a bullet about four years ago will soon be discharged from the City Hospital at Blackwell's Island, New York, entirely well.

SERIOUS CONDITION OF MILLIONAIRE INJURED IN AUTO ACCIDENT

NEW YORK, July 8.—Dr. Julian P. Thomas, the millionaire and amateur aeronaut of international reputation, is in a critical condition, while two young women who were in an automobile with him were seriously injured, as a result of an accident late last night. Thomas, who is one of the world's best known balloonists, Miss Haas, one of the young women, had her leg amputated at the hospital. Doctor's announce that both women will recover. Thomas' condition is critical.

ENTERTAINS AT NEWPORT.

Mr. Woodbury Kane and Mrs. Le Roy King gave children's parties at Newport last week that added to the gaiety of the season here.

STOLE REGALIA AND KING'S VISIT IS POSTPONED

Dublin, July 8.—A portion of the state regalia, valued at \$250,000, has been stolen. The safe in which the regalia was kept was forced. The jewels stolen were those used in the ceremony of investiture in the Order of St. Patrick, the processional cross, studded with diamonds, and the jeweled sword which is borne in procession at the investiture of the knights. Lord Castleman, Knight of St. Patrick, was to have been chief of the state ceremony on the occasion of King Edward's visit to Dublin, but it is officially stated that the ceremony will be postponed. Developments are expected.

"MOLLYCODDLE" DID NOT LIKE THE AUTO'S COLOR

Lincoln Park, N. J., July 8.—Mr. Frank Hooper, a farmer who lives near here, led his gray bull, Mollycoddle, out of its pasture on top of a hill Sunday afternoon. Hooper was going to lead him home. At the same time McVie C. Stebbins, with two friends, Harry Hitchcock and Percy Watson, of Newark, were climbing the gentle hill in an automobile.

Stebbins' automobile is red. Hooper and Mollycoddle noticed that at the same time. Mollycoddle began to bellow gently like a narrow gauge engine getting up steam. Hooper began to dig his heels into the ground and get a two-hand hold on the halter.

The chauffeur, a young man of no wide experience, laughed gaily, gave his horn a merry honk, and ran the lever to its last notch. At this time Mollycoddle was bellowing like a broad gauge engine, bellowing at a flag station and throwing clouds of earth about 10 feet into the air with his feet.

Of course Hooper had led Mollycoddle to the side of the road, but before the machine had reached the top of the hill Mollycoddle charged. He had a double-barreled shot gun. He hit the corner of the machine. The bull of the automobile went up in the air, as if he were a cork, and fell on the ground. They all ended up there as described by the latest cloud of smoke and dust.

Ultimately the automobile rolled over into a ditch, its occupants preceding it in time to land with more injuries than bruises. Mollycoddle trotted up the hill so vigorous observers aver with a piece of the machine's horn on one of his horns. Hooper then led him away, chiding him severely for his rash actions. Stebbins and his party went out to Little Falls to see a doctor.

PAIL OF WATER INCITED A RIOT IN NEW YORK

New York, July 8.—A pail of water thrown from an upper window and upon the heads of a group of Italian boys who had disturbed the quiet of a colored woman, incited a riot on San Juan hill that landed five men, one dying, in the hospitals, made several men prisoners, and terrified the peaceably inclined among the 10,000 persons of all nationalities who reside in West Sixty-first and West Sixty-second streets between West End and Amsterdam avenues.

Small Race Riot.

Washington, July 8.—A race fight occurred at Chesapeake Junction, a small resort near this city, and two negroes were seriously injured and several other persons received slight injuries. Police reserves sent to the junction restored order after making several arrests of white persons and negroes. The fight grew out of a controversy over a woman.

CAPITALIST SHOT BY A BURGLAR

Salem, Mass., July 8.—A burglar shot and wounded Franklin Haddock, president of the Franklin Haddock Leather company of this city, while fighting to escape from the Haddock factory here. The bullet plowed a furrow several inches long in Mr. Haddock's back. The robber got away. Mr. Haddock had mislaid about \$1,000 worth of skins and was watching at the factory. Early in the day he discovered a robber and grappled with him.

MOB TRIED TO LYNCH NEGRO

New York, July 8.—Win Curtis, a negro, narrowly escaped lynching in the South Ferry subway station today. He had pushed Gateman Geo. Metzger in front of an approaching train and he later died at a hospital. The mob beat the crowd back with clubs and then ran with Curtis. The mob pushed them several blocks but he landed a negro behind the bars.

A New York, W. Va. a Baltimore & Ohio train backed into a same line, occupying the caboose, in which were Conductor William Jasper and brakeman George Gersman, both of whom were instantly killed.

By H. K. Hoy, a prominent homoeopathic physician of Allentown, Pa., committed suicide by drinking carbolic acid.

Total excavations from the Panama canal during June, according to a dispatch from Chief Engineer Lieutenant Colonel Goethals, was 789,957 yards.

J. D. ROCKEFELLER IS IN CLEVELAND AFTER TESTIFYING

OIL KING WOULD SEE NO ONE AT HIS FOREST HILL MANSION.

BUT LITTLE INFORMATION

Was Gained When the Magnate Took the Stand in Judge Landis' Court Saturday.

Cleveland, O., July 8.—John D. Rockefeller arrived in Cleveland from Chicago over the Lake Shore railway, and quickly was taken to his Forest Hill home. Mr. Rockefeller was alone and left the train at the Union depot. Mr. Rockefeller remained secluded all day and would see no one, although many reporters made an effort to obtain an interview.

Chicago, July 8.—Little information was gained by the United States district court from John D. Rockefeller, who was summoned to testify as to the financial condition and operations of the Standard Oil company. The net result of his examination was that he believed that during the years 1903, 1904 and 1905, the period covered by the indictments on which the Standard Oil company of Indiana was recently convicted, the net profits of the Standard Oil company of New Jersey were approximately 40 per cent of an outstanding capitalization of \$100,000,000. Specific figures as to the earnings of the parent corporation were given by Charles M. Pratt, its secretary, and they were close to the estimate given by Mr. Rockefeller.

After Judge Landis had informed all the witnesses that they were dismissed, he offered the attorneys for the company the opportunity to explain to the court that the Standard Oil company of New Jersey never violated a federal law. The representatives of the company will have the opportunity to prove this innocence, if they care to accept the offer. When asked what action would be taken, counsel for the oil company declared that they did not know.

Judge Landis said that he had not heard from anyone connected with the oil company and had not the slightest idea of what the attorneys intended to do. Just as soon as the court proceedings are finished Judge Landis will take the imposing of a fine under consideration. He declared that it would be at least a week before he would reach a decision as to the fine.

STANDARD DEFIES JUDGE LANDIS

Chicago, July 8.—The Standard Oil company this morning defied Judge Landis. It is said that "Ignoring the gossip of the street and the mob, depending upon the fundamentals of the law, we interpose no further objections to the court's proceedings."

JOHN D. IS 68

Cleveland, July 8.—John D. Rockefeller celebrated his 68th birthday today by going to the Euclid club golf links and watching the famous golfers gathered there for the national tournament play for the Olympic cup. John D. was gay as a schoolboy and followed the players around, and told the spectators how much he liked the game. Rockefeller will entertain a few intimate friends, at dinner tonight in celebration of his anniversary.

TWO BUILDINGS

Collapsed in the Wholesale District of Indianapolis Entailing a Heavy Loss.

Indianapolis, Ind., July 8.—Two brick buildings, three stories high, in the center of the wholesale district, collapsed from some unknown cause, causing a loss of \$220,000. A subsequent fire in the debris entailed a considerable portion of the loss. Had the collapse occurred during business hours a large loss of life would certainly have occurred. As the buildings were among the oldest in the city, it is thought this was the main reason for the collapse. The principal losses are: Daniel Stewart Drug and Glass company, \$100,000; Martha Stewart company, \$50,000; the Brunswick-Balke Collieries Billiard company, \$50,000; Henry C. Bals estate, building, \$20,000.

O. G. Galt was appointed receiver for the Stall Dry Goods company at Louisville, Ky. Liabilities \$130,000.

DAY'S BUSINESS IN COURT HOUSE

Bankrupt's Suit.

Harry D. Baker, trustee in bankruptcy of William C. Dahne, has commenced suit against the city of Newark to recover something like \$1738, claimed to be due as assets of the bankrupt's estate at the time he was adjudged a bankrupt.

Executor Appointed.

William W. Reynolds has been appointed executor of the will of Agnes L. Deering, deceased of Washington township. Bond \$3000.

To View a Ditch.

The county commissioners will go to the northwestern part of the county Tuesday to look over the Abner Walker ditch. This is a ditch three and a half miles in length and it is desired to straighten and deepen the channel of the headwaters of Raccoon creek. The estimated cost of the improvement is \$9,000 and the property owners of whom there are 15, have hired lawyers and are protesting against it on account of the cost.

Answer Filed.

In the case of the Village of Johnstown against Lee Tippet, the defendant, by his attorney, Robbins Hunter, has filed his answer. He admits that he is the owner of the land referred to in the petition, and that the same abuts on the corporation line of Johnstown. He also admits that for 21 years the plaintiff has enjoyed an easement in the defendant's land for the purpose of draining surface and percolating water collected by drains from certain parts of the corporation, but says the easement is for an eight inch tile and the drainage of the surface and percolating water. The defendant admits that the drain as originally constructed was of the eight inches in diameter, and that within the three months preceding the commencement of this action the plaintiff replaced the eight inch tile sewer by one 12 inches in diameter, and that the same extended over and upon the lands of defendants, but the defendant denies each and every other allegation contained in the petition not admitted to be true, and asks the court to dismiss the petition.

The defendant also says that the eight inch tile mentioned in the petition has since been changed to a 12 inch tile drain, and that the 12 inch tile drain increases the burden as it carries off more sewage than the eight inch tile drain, and that since the village installed a system of water

works it has caused sewage matter to flow through the 12 inch pipe into defendant's land. Defendant asks for an injunction restraining the village of Johnstown from using the 12 inch pipe and also prays that the village be enjoined from draining sewage matter on his lands.

Marriage Licenses.

John Burton Robinson, Newark; Flora May Delancey, Licking county.

"Generally debilitated for years. Had sick headache, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Fretoy, Moonspan, Conn.

Travelers Adjourn.

Kansas City, July 8.—The first annual convention of the American Federation of Travelers, an organization for the protection of travelers' rights, adjourned to meet in August of next year at Denver. W. A. Morgan of Sedalia, Mo., was elected president, Dan W. Richmond of Chicago secretary-treasurer.

MAY OPERATE "JIM CROW" CARS

Washington, July 8.—The interstate commerce commission handed down a decision today reaffirming the right of interstate railways to operate "Jim Crow" cars but declared that the accommodations for negroes must be equal to those provided for white passengers. The case decided is that of Georgia Edwards, negro, who, while en route from Chattanooga, Tenn., to Dalton, Ga., on a first-class ticket was forced into a separate compartment on the Nashville, Chattanooga and St. Louis railway. Although based on the question of unequal accommodations, the action was brought to determine the right of interstate carriers to discriminate against passengers on trains.

DON'T WANT CONVENTIONS. Chicago, July 8.—Chicago politicians express the hope that neither of the big conventions will come to Chicago and are actively at work to prevent at least one of them from being held here. The principal objection is the question of the heavy expense.

RUSSIAN UPRISING.

St. Petersburg, July 8.—An uprising of 2000 peasants in the Schlussburg district, just east of St. Petersburg, is causing concern to governmental authorities. Clashes have occurred between the rioters and the troops and a number of persons were injured and the authorities fear the riots will spread into the capital.

If all the engagements resulted in broken hearts the world would about go to smash.

AMUSEMENTS

The following is the cast of characters for the King School of Oratory production of Hamlet tonight at Taylor Hall:

HAMLET.

Claudius, Mr. Johnson.
Hamlet, Mr. King.
Ghost, Mr. Mason.
Polonius, Mr. Bush.
Laertes, Mr. Miller.
Horatio, Mr. Higgs.
Rosencrantz, Mr. Mock.
Gundensheim, Mr. Shamus.
Osric, Miss Miller.
Marcellus, Mr. Taber.
Bernardo, Mr. Bebout.
Francisco, Mr. Mock.
Player King, Mr. Porter.
Player Queen, Miss Hazlet.
First Grave Digger, Mr. Downey.
Second Grave Digger, Mr. Bebout.
Priest, Mr. Mason.
Gertrude, Miss Shields.
Ophelia, Mrs. King.
Second Player, Mr. Wood.

BARLOW'S MINSTRELS.

With an entirely new scenic production, bright and original costumes, snappy music and ensemble numbers that please instantly, the Great Barlow Minstrels opened their week's engagement yesterday at Idlewild.

The curtain rises on a novelty in the shape of a landing of a 29th century airship, showing the airship moored to the rear of a platform, musicians seated on roof of car, while the comedians and singers, dressed as officers and servant of same in brightly colored regalia issue from the side of the car to the inspiring strains of "Yankee Boy." "You've Got to be American to Feel That Way," etc., two of the very latest musical numbers published. Tom Powell of the Al G. Field minstrels, is principal comedian and the work of the genial Tom requires no guarantee. Joe Dunlevy is also a strong favorite. Tom Galvin is also a prime favorite and his grotesque dancing and efforts as the "Mississippi Babe" in wench costume is a hit.

The high tenor voice of Eugene Williams is a most pleasing number in "Back to the Days of Long Ago," while Robert C. Hockett's magnificent basso in "A Thousand Miles From Shore," is one of the best numbers. Other pleasing numbers are Mr. Grimmer's "Red, White and Blue," Mr. Sampson's "Far Away," and Mr. Van Tress' "Love Me and the World is Mine." In the olio "Lively," the contortionists, has an exceedingly pleasing act and an original feature in the "Demon's Grotto." The quartet number is a novelty in its intro-

duction and "Murphy & Powell" present a musical specialty of ludicrous situations. The Penderson Bros., European link experts were unable to appear Sunday as their apparatus was late in arriving from New York, but they will appear the balance of the week and present an act of acrobatic and athletic excellence. Altogether it is the best company Mr. Coburn has ever brought to the city. A street parade was given Monday noon and evening concerts in special cars between the city and the park will be features of the engagement.

FASCINATING FLORA

New York, July 8.—An unusual audience attended the performance of "Fascinating Flora." Inspired by the presence of so many of their contem-

MISS ADA LEWIS

poraries (and in some cases made a little nervous thereby), the "Fascinating Flora" company played with unusual vivacity. Miss Ada Lewis, Miss Ritchie, Frederic Bond and Lee Harrison were among the many merry-makers.

Will Obey the Law.

Boston, July 7.—In reply to the inquiry made by a morning newspaper as to what developments might be expected in the recently proposed merger of the Boston & Maine and the New York, New Haven & Hartford railroads, now that the legislature has restrained the project, President Mellett of the New Haven road laconically telegraphed: "The New Haven railroad will obey the law."

French Student's Discovery.

Rochefort, France, July 8.—Andre L'Ancein, a student in the medical college here, has given a demonstration of a new substance called "Molybdo," possessing properties of bromide of radium.

Read the Advocate Want Column

SHE MAKES HIT AS ELSIE JANIS DID

New York, July 8.—Miss Belle Blanche, who is a leading feature at Hammerstein's Victoria, is indebted to the popularity of imitations for her present position. Although possessed of a good singing voice Miss

MISS BELLE BLANCHE

Blanche gained only a moderate degree of attention on the vaudeville stage. After the success of such imitators as Miss Loftus and Miss Elsie Janis, Miss Blanche turned her gift of mimicry in the same direction to the pleasure of her audiences and her own profit and position.

CRAZED BY HEAT AND RUNS AMUCK

New York, July 8.—Temporarily maddened by heat Milton Alvin, a plasterer of the Trust company of America's new Will street building, attacked his fellow workmen with a hatchet today and cut three of them down before the fourth knocked him unconscious. Two of Alvin's victims will die and the third is badly injured. Alvin was severely cut by a blow which felled him, but will recover. The men were working on a narrow scaffold and had no chance to avoid the blows of the heat maddened man.

The prodigal would even spend the coin of vantage.

Some people are not satisfied to tell the truth; they want to stretch it.

Cooking Hints That Help

Is your cooking in a rut—the same usual run of dishes prepared in the same old way? You can give many of these dishes a touch of newness and added goodness by letting

KINGSFORD'S OSWEGO CORN STARCH

help you in preparing them. Just how and when is carefully explained to you by two famous cooks in our book of

ORIGINAL RECIPES AND COOKING HELPS

which we send free. It's a reliable aid to better cooking and baking. Always ask for the genuine Kingsford's Oswego Corn Starch, the purest, most delicious—the standard of quality for over half a century.

Made for over fifty years at Oswego. All grocers, pound packages, 10 cents. T. KINGSFORD & SON, OSWEGO, N. Y. NATIONAL STARCH COMPANY, SUCCESSORS.

Men's Oxfords

There is distinctive-ness about our Oxfords that makes them attractive to young men. Every line is carefully bought with the most painstaking care, both in the selection of the material and shape of lasts and the result is seen in Oxfords that fit, wear and preserve the shape.

UNCLE JOE—THE STORY TELLER

He Tells the Children About Bees.

UNCLE JOE had been a good many places, and had seen and learned a good many things which seemed strange and wonderful to his young listeners. And oftentimes grown members of his circle of relatives and friends found much to interest them in the tales of Uncle Joe, the Story Teller.

After an active life of study and travel, one filled with adventure, Uncle Joe found pleasure in regaling the youth of his acquaintance with accounts of his experiences and results of his studies. So, it was seldom the request for a story met with refusal.

It was Arthur who reminded him that he had promised them to tell them something about bees, and this he:

influence over animals; and those who referred to Bill as 'tetched' claimed the lad thought he could talk with them.

"Mr. Bradley, among other things, kept bees on his farm, and sold the honey in market. He had a standing offer of 25 cents to the children for the one to discover the first swarm of bees in the spring, and 10 cents for each succeeding swarm. Bill got most of the money.

"One day I met Bill far from home. I asked him where he was going. He replied, 'bee gumming,' and informed me I could go along if I wanted to. I wanted to, and accompanied him.

"After we had proceeded some distance Bill stopped and began to look around, noticing particularly some flowers which grew by the roadside.

"What are you looking for, Bill?" I asked.

"Bees," he replied.

"Well, here's one," said I, pointing to a little worker whereon a bee was at work. Soon the little worker had exhausted the flower's sweet, whereupon it rose, hovered for an instant and flew away in a direct line.

"That one's no good," said Bill. "I know where it's going. I got ten pounds of honey from its tree the other day, and sent it into town with Paw's. But you don't get as much for wild honey as you do for the tame kind. It's more apt to be dirty, because the wild bees have to hive wherever they can, and tame bees have their homes built and cleaned for them."

"Several other bees were observed and the direction of their flight taken, but none seemed to suit Bill, and we went on. After considerable walk we came to some wild geraniums, and there my companion elected to stop.

"We've seen them before," said

WILD GUM TREE

THE TREE WAS LOCATED, BUT NOT DISTURBED.

DRONE BEE.

THE QUEEN BEE.

WORKER BEE.

all the other kind of flowers that are out now," said he, "and there hasn't been one fly the way I want it to. Maybe the ones I'm looking for will be on geraniums."

"Pretty soon a bee alighted on a geranium, and though there were other blossoms about I noticed this particular bee, touched buzzing from flower to flower, touched only geraniums."

"How's that?" I asked.

"Wait till it flies, and I'll tell you," said Bill. Soon the bee had its honey-bag full and took its flight. Bill laid down a stick, indicating the direction, and turned to me. "That

little old brown-back's making geranium honey this trip," he declared, "and like as not it will keep on doing the same for a while. There are bound to be more like it, and they'll probably be on geraniums, too. Besides, it flew in a different direction from those we watched back there. Now, you go on ahead a piece and find a geranium bee and lay your stick the way it flies, and come back here."

"I obeyed instructions, and it was not long until I had my stick laid and was back with Bill.

"Can you walk chalk?" he asked. "I didn't quite understand, and so told

him.

"I mean in a straight line," he explained. "Can you keep your face straight ahead and follow your nose?" I assured him I felt able to do so, and wanted to know what was the object. He pointed to his stick, and said: "I'm going straight ahead the way this stick points, and you go straight ahead the way your stick points. Don't go too fast, and you'd better holler once in a while so I'll know you haven't gone too far. I'll holler to let you know the same. If your bee and my bee belong to the same queen we'll find their hive where we meet. And if there isn't

any bee tree there, we'll have to try it again with the sticks further apart."

"Why?" asked I.

"Because," answered Bill, "sometimes bees have to turn out for things the same as people do. As a rule, bees don't fly as high as the crow or the wild duck. They have to go around and dodge things. A 'bee-line' means straight ahead till you have to turn out for something. But 'as the crow flies,' means straight ahead through the shortest space between two points. The bee gets its sight on the desired direction and only swerves for obstacles. The crows above obstacles and flies straight home. That's what makes bee-hunting so hard. You've got to sight the bee's flight as started and watch how far it goes before it turns sideways. Right there's where you walk to and lay your stick just like you started. If it's a hill or a big tree or anything like that it has to go around or over, you've got to go to clear space again and figure out your angle and follow the figure the bee figured it. Then you keep on doing that again and again, making marks as you go, until you think you're far enough. Then you go and get your second stick and follow it the same way. If you can walk chalk you find the bees and get the honey."

Here Uncle Joe paused to make a side remark: "And 'ae same holds good pretty much with some other things in life."

"Well," resumed the Story Teller, after his moment's pause, "Bill Bradley and I had started after those bees and their hive. I followed his instructions and shouted to him at intervals. He shouted back, as he said he would, and we drew closer and closer until we finally met. Bill looked around and solemnly declared there was no bee tree in sight. He said we had started too close together."

"By this time we had reached the road, and as it was getting late we decided to go our separate ways. But before parting, Bill took time to say: 'You come over to the farm some day soon, and I'll show you and tell you a whole lot more about bees. And say, don't you tell anybody, but I'm saving up my money for a Spanish queen, and I've almost got enough.'"

er. He believed we ought to spread it out more; that maybe his stick was too crooked, or mine was.

"So, we both went back to our original starting places and whittled off all the crooked side branches of our marking sticks, and then I took my stick as far away from Bill as I could make him hear and found a geranium bee. I sighted its flight and started from there."

"That time we had better luck, and, though we had to look around pretty closely for a while after we met, the tree was located, but not disturbed. Bill explained that his only object was to locate the tree and hold off taking the honey until his Paw got ready to go to town again with some of his own."

"Bees are funny little things," said Bill, as we walked through the woods to the roadside, "that is, if you don't understand them. I'll bet I understand bees as well as Paw does, but I wouldn't let him hear me say that for anything. He'd larrup me if he heard. He thinks he's the only person knows about bees, and that I don't know anything about anything. But it's funny, all the same, I'm the only one he will allow to have anything to do with his bees. Why, I make more money twice over for finding swarms than all the rest of them put together. And every time they swarm hanging from a limb I am always the one that has to go up and shake them down easy while he holds the hive under them for them to fall in."

"By this time we had reached the road, and as it was getting late we decided to go our separate ways. But before parting, Bill took time to say: 'You come over to the farm some day soon, and I'll show you and tell you a whole lot more about bees. And say, don't you tell anybody, but I'm saving up my money for a Spanish queen, and I've almost got enough.'"

July 7 In History.

1807—Emperor Napoleon I. of France and
Emperor Alexander I. of Russia con-
cluded a treaty of peace at Tilsit, on
the river Nieman, as a result of the
French victory over the Russians at
Friedland June 14, 1807. By this treaty
Napoleon left the eastern part of Eu-
rope divided into kingdoms between
himself and the emperor of Russia. The
legitimacy of the crown
which Napoleon had assumed and of
the crowns he had placed upon the
heads of his brothers was recognized
by this treaty.
1807—Prince Ferdinand of Saxe-Coburg-
Gotha was elected prince ruler of Bul-
garia.
1886—Justice Samuel Blatchford of the
United States supreme court died at
Newport, R. I.; born 1830.
1886—George Law, capitalist and projector,
son of George Law of Panama fame,
died in New York city; born 1842.
1887—Hon. William Slocomb Grosbeck,
distinguished Ohioan, died in Cin-
cinnati; born 1818.
1901—Pierre Lorillard, noted turfman and
millionaire manufacturer, died in New
York city; born 1883.

July 8 In History.

1782—General Abercrombie
defeated the British at the battle of
Oriskany, and was repulsed with a
loss of 2,000.
1790—Fitz-Greene Halleck,
poet, was born in
Quincy, Conn.; died
there 1867.
1822—Percy Bysshe Shel-
ley was drowned in
the bay of Spezia; he
was born 1792. The circumstances of Shel-
ley's death were peculiarly tragic. He
left England in order to retain the
custody of his child by Mary Godwin
and settled in Italy. A boat in which
he sailed from Leghorn disappeared
during a sudden squall, and the poet's
body was washed ashore.
1876—General Frank P. Blair, noted Fed-
eral veteran, died in St. Louis; born
1811.
1877—Senator Itham G. Harris, noted Ten-
nessean, died in Washington; born
1818.
1899—The Grand Duke George, brother of
the czar, and heir to the throne, died
at St. Petersburg; born 1858.

Called Meeting

Of the Democratic County Central
Committee, to Be Held Sat-
urday, July 20, 1907.

There will be a meeting of the Dem-
ocratic County Central committee at
the Music Hall on West Main street,
on Saturday, July 20 at 10:30 o'clock
a. m. for the purpose of considering
and fixing the time and mode for
holding the township and municipal
nominations.

Also, for fixing the time for holding
the primary election for the nomina-
tion of a candidate for Representative
of Licking county, to fill the present
vacancy in that office.

All Democrats of the city and coun-
ty are especially invited to attend
this meeting and participate in its
deliberations.

R. W. HOWARD, Chairman.

O. C. LARSON, Secretary.

The following is a list of the com-
mitteemen:

Bennington—C. E. VanFossen.

IN POLICE COURT.

Philip Varner's residence in
West Main street was entered Saturday
night by burglars and \$25 in money
was stolen. The police have Clyde Du-
boise in custody at Bucyrus and it is
believed that he will be proven guilty
of the charge.

Early in the evening Saturday two
men appeared at the Varner home. One
of the men engaged Mrs. Varner in
conversation, pretending that he wanted
to buy some chickens.

It is thought that the other man
entered the house and stole the money.
When arrested at Bucyrus DuBoise had
a fancy comb on his person and the
police believe he bought this in Col-
umbus while en route to Bucyrus. A
description of DuBoise's pal, who es-
caped, tallies with that given by Mrs.
Varner of one of the men who was at
her home Saturday.

Several plain drinks were up before
Mayor McCleery Monday morning. The
bunch drew the usual five and costs
and were evenly distributed between
the county jail and the stone pile.

Mayor McCleery ordered an investi-
gation of the story told by Phil
Taylor, colored, who claimed to have
been assaulted by a bartender in Ran-
som's saloon on Fourth street. The
Mayor learned that Taylor went after
Sam Henry, the barkeeper, with a big
knife, and Sam pulled the butt end of
a billiard cue from behind the bar
and stopped Taylor's advance. No ar-
rests have been made.

The case against Ruben Coffman,
charged with embezzlement, has been
continued again. The matter was set

for trial last Saturday but his attorney
asked for a continuance, which was
granted.

A traveling man giving his residence
as Bucyrus was locked up Saturday
night by three officers, who charged
with being drunk at the B. & O. sta-
tion. The man claims that he was
not drunk, but that he was drugged
and robbed. He was fined and allowed
to go on his way. The police do not
take much stock in his story.

WEHRLE PLANT TO RESUME OPERATIONS

The Wehrle company, after having
bad their mammoth plant closed
down in most of the departments for
the past week, resumed operations on
Monday with a full force of men.

NEW PAVEMENT BIG IMPROVEMENT

Mr. John Wagenheim the stone and
cement expert commenced Monday
morning tearing up the flag pavement
in front of the A. L. Rawlings and
Tabler & Williams stores in the Lans-
ing block, preparatory to laying a ce-
ment walk in front and along the
side of the building, back to the alley
in the rear.

The flag pavement that is being re-
moved is one of the oldest of its kind
in the city, having been laid in 1861,
and is worn down in some places to a
thickness of not over one and a half
inches. The curbing was of Dayton
blue stone, and was considered a fine
article of stone for such purposes in
its day. The walk when finished will
certainly be a great improvement to
the abutting property.

THIS AND THAT

Uncle Sam is to send a fleet of big
battleships to the Pacific to frighten
Japan. But why should Japan fear a
pacific fleet?

It is always the trustful employee
that gets away with the bank's funds.
The other kind never gets a chance.

The mayor of Ashtabula has ve-
toed an ordinance increasing his sal-
ary. Otherwise, it is said, no other
peculiar derangement has been dis-
covered in the man's conduct.

A Wisconsin man died of joy be-
cause his salary was increased \$2.
This may serve as a warning to many
employers to be careful about taking
such chances imperiling the lives of
their employees.

A New York man gives advice to
his neighbors not to eat meat in or-
der to get even with the beef trust.
At last accounts he had not dimin-
ished his own orders to his butcher.

Youngstown is not only suffering
from humility in consequence of the
defeat of her baseball team, but all
the other towns in the league are so
hilarious over the matter as to give
evidence that they haven't a particle
of sympathy for the former cham-
pion's mortification.

They are talking of a monster
strawberry, "as large as a potato,"
that is to be put on the market next
year. It will be splendid for putting
on the top of the basket.

It was all a mistake that Rockefel-
ler didn't want to go to court. He
was really glad to go when the vigil-
ant deputy marshal finally found him.

HOT WEATHER IS NOW PREVAILING

The weather man got awfully busy
in this section of the state Saturday
and has been busy ever since dealing
out the hottest three days so far this
year. The heat has been so very op-
pressive that it seems marvelous that
many have not been overcome.

Sunday noon thermometers in the
down town section registered 86 de-
grees in the shade. In the afternoon
the heat was not so great because of
a slight breeze which prevailed until
evening.

Monday forenoon at 11 o'clock the
thermometer at Central fire station
registered 88 in the shade. This af-
ternoon so far is the most oppressive
of the season, and it is feared that
many cases of heat exhaustion will be
reported if such weather continues,
and considerable care is not taken by
laborers and others who are com-
pelled to be in the glare of the sun.

TORTURING SKIN DISEASES
All forms of itching, burning, dis-
figuring skin eruptions are cured by

SERIOUS

Are the Injuries of Mr. Jack Roe Who
Fell From a Stepladder Satur-
day Evening.

On Saturday evening a serious acci-
dent happened to Mr. Jack H. Roe, who
lives in the extreme eastern end of
the city on East Main street.
Mr. Roe was standing on a stepladder
and engaged in painting the ceiling of
the porch of his residence when in
some way the ladder slipped and Mr.
Roe fell to the floor, a distance of
about 7 feet.

It was seen at once that he was
badly hurt, and when Dr. Barker came,
it was found that one rib was broken
and another dislocated, and it is feared
he sustained internal injuries.

Sunday he was suffering greatly,
but Monday he is resting easier, and
while he is not by any means out of
danger, it is thought that he will re-
cover.

REPORTED WRECK

St. Louis, July 8.—A report received
here from Herrin Illinois, is to the
effect that five persons have been killed
in a wreck on the Burlington road near
Herrin. No particulars were received.

COOLIE CLAUSE EXCITES JAPS

Will Not Renew Present Treaty With
the United States.

TOKYO CABINET BACKS DOWN

Japanese Societies and Progressive
Party Obtain a Concession From
the Government—Objection Raised
to Immigration Feature of New
Treaty Submitted By Mr. Root.

Washington, July 8.—Advices pur-
porting to give the views of Foreign
Minister Hayashi, which were received
here from Ototake Yamaoka, the
personal representative of Count Oku-
ma, leader of the Progressive party
in Japan, indicate that the Japanese
government will not consent to the
renewal of the present treaty with the
United States if this government re-
serves the right to insert a clause in
the compact excluding Japanese coolie
labor from continental United States.
M. Yamaoka, who visited the United
States in April and perfected an al-
liance with the Japanese of the Pa-
cific coast for the purpose of bringing
about the overthrow of the Saitoni
ministry and the annulment of the ex-
clusion clause in the immigration bill,
is authority for the statement that
Foreign Minister Hayashi has received
from Secretary of State Root a pre-
liminary "note" regarding the new
treaty which the two governments pro-
pose to substitute for the convention
which expires July 1, 1911. The draft
of the new treaty submitted by Secre-
tary Root, according to the communi-
cation from Mr. Yamaoka, called for
the renewal of article 2, clause 4, of
the present treaty, which gives to each
nation the right to regulate immigra-
tion. With reference to the "note"
submitted by Secretary Root, Mr. Ya-
maoka says that Foreign Minister
Hayashi has issued an official confi-
dential memorandum outlining the
Japanese government's attitude on the
question of the limitation of immigra-
tion, which in substance is as follows:
First—That the government of the United
States has submitted a proposal for
the enactment of a treaty which provides
for the limitation of immigration. The
government of Japan has rejected the
proposal, and will not in the future en-
tertain such proposition.
Second—That in the new treaty, which
is to be operated from the forty-fourth
of Meiji (1911), the government of Japan
will insist on striking out the article 2,
clause 4 (defining the power reserved by
the contracting parties to enact laws
with regard to police and immigration
regulations). For that purpose the gov-
ernment of Japan shall take a most vig-
orous attitude. Although the negotia-
tions for that end are not yet developed,
we firmly believe that the government of
the United States will fight with deter-
mination to preserve the clause.
Third—That the government of Japan
contemplates sending representatives to
the United States to investigate condi-
tions on the Pacific coast and to deter-
mine if the Japanese residents are dis-
criminated against.

Mr. Yamaoka, it is said, has sent
copies of Foreign Minister Hayashi's
confidential memorandum to the Ja-
panese societies of San Francisco and
Seattle and to correspondents of the
Japanese newspapers in this country.
Dr. Masuji Myakawa, the Japanese
lawyer, admitted that he had seen a
copy of the communication which is
being distributed by Yamaoka, and
characterized the attitude of Foreign
Minister Hayashi as a concession to
the Progressives, who have strongly
opposed the clause in the immigration
bill excluding coolie labor from this
country.

Battleship's Narrow Escape.
Toulon, France, July 8.—The battle-
ship Hoche had a narrow escape from
destruction. Fire broke out near her
powder magazine, and in order to pre-
vent the spread of the flames the bat-
tleship was sunk in a slip adjoining
the one in which the battleship Iena
was wrecked by an explosion, with
great loss of life, March 12, last. The
fire, which broke out in the saloon, as
did the fire which destroyed the
French torpedo school ship Algeiras
here Nov. 23, 1906, resulting in the
loss of three lives, is a mystery, and
as this is the third conflagration to
break out on board ships at Toulon
within a month the incident has cre-
ated much disquiet, and a rigid inquiry
is being made.

Army of Philippines.
Kansas City, July 8.—The annual
encampment of the Army of the Phil-
ippines will be held in Kansas City
Aug. 13-16. Delegates from 125 camps
of the society, most of them in the
middle west, will be present, and the
attendance is expected to be larger
than ever. Lieutenant General Arthur
MacArthur, commander-in-chief of the
society, will attend the encampment,
and on the second day will review the
military parade, a feature of each
year's encampment. The Army of the
Philippines includes those regiments
that served in the Philippine Islands
following the Spanish-American war.
The society has a membership of
120,000.

Celestials Shoot.
Philadelphia, July 8.—The warring
tongues of Chinatown, which have
been responsible for riot and blood-
shed at frequent intervals in this city,
engaged in a shooting affray, as a re-
sult of which Wong Luck of Perry
street, New York, and Lung Lee, a
barber in the local Chinese colony, are
dead. Mon Mon, who says he lives at
11 Mott street, New York, and Yung
Tee of this city, were arrested by the
police, charged with participating in the
shooting. Half a dozen other Chi-
nese men were arrested as witnesses.

HONEST ABE, U. S. M.

Tries His Hand at Verse Again
and Makes a Hit.

POETIZES THREE WEDDINGS.

And Is Given the Glad Hand by Those
He Aided in Their Lovemaking.
Picked as Next President of the
United States.

[Copyright, 1906, by E. C. Parcells.]

I learned almost as soon as I had
started out on my route the other day
that there had been doings at the
house of Farmer Johnson, and when I
got along there it was to find the farmer
waiting at the gate and to call out
to me:

"Abe, you've got to come in and have
a glass of hot cider and a bite of the
wedding cake. Mary and Joe Holmes
was married the other day."

"Shoo! You don't tell me!"

"Yes, sir; married as slick as grease
and are now as happy as two yearling
colts. They've gone to town today to
see about the furniture, but you must
come in and give us some of that poetry
of yours. They want it to start out in

"THEY TOOK A SUDDEN HEADER."
life with. Both of 'em said that it
would be as good as a hundred dollars
in cash."

Joe and Mary.
I went in, and, feeling in the humor
for it, I drew the cider, ate the cake
and dashed off the following:

Joe Holmes and Mary Johnson, after
courtship for a year,
Have been wed by old Squire Jackson
hard and fast.

There's an end of nights of sparking, with
Cupid for their cheer,
And the period of the gumdrop it has
passed.

No longer hands a-squeezing, no longer
does he vow
That she's a heavenly angel all but
wings.
The problem now with Joseph is just ex-
actly how
He's going to face the racket marriage
brings.

He'll have to hump and hustle and get a
move on him,
And by and by there'll come a red faced
babe,
A teeny twenty infant with much amaz-
ing vim,
And of course no name will fit him but
that of Honest Abe.

Farmer Holmes shook my hand and
winked and his wife shook my hand
and smiled when the verses were read
to them, and after another glass of
cider I took my departure, feeling that
it was good to have been born a poet.

A mile farther down the road I found
Farmer Kent mending a fence. There
was a grin on his face as I came up,
and after a moment he said:

"Abe, they've gone and done it."
"Who? What?"

"Sarah and Jim Ward. I guess you
knew they was in love and acting like
two mushrooms."

"You don't mean they have commit-
ted suicide?"

"Naw! Got married three days ago
and have gone over to his sister's on
their bride tower. I don't know what
a bride or a tower has to do with it,
but that's what they call it, I believe."

"Well, Jim's a steady young fellow,"
I said.

"Yes; he'll have to do. I sorter want-
ed Sarah to marry a windmill man
and bring some style into the family,
but maybe it's just as well to have
Jim. Say, they left special word for
you, and we might as well go to the
house. They've got to have some
poetry on to it. Can't get out of it,
Abe—can't possibly do it."

Jim and Sarah.
Fifteen minutes later I had left be-
hind me at the house the following
poetic effusion, which I entitled "The
Exciting and Ungrammatical Romance
of Two Loving Souls."

They fell in love at spelling school,
Jim Ward and Sarah Kent,
And Cupid shot an arrow that
Through both their hearts it went.

He loved her for her big blue eyes;
She loved him for his smile,
And for a year and maybe more
Young Cupid did beguile.

They vowed they'd never loved before;
They vowed and went asunder;
They quarreled, as all lovers do,
And raised a lot of thunder.

But love was there, I'm glad to say,
And brought them back to reason;
Their hands before the preacher clasp-
ed,
And marriage in due season.

Here's hoping every luck for them!
May children ten surround them;
May Cupid smile and wink as cute
As when his dart's first found them.

The next stopping place was at
Farmer Jones'. His wife waved a red
flag at me from the window as I came
along the road, and, thinking she want-

ed to ask me about a money order, I
got down from my cart and went in.
Her old man sat at the stove toasting
his shins, and they both greeted me
with smiles as I entered.

"What's up?" I asked as they con-
tinued to smile and chuckle.

"Hist! They are up there!" whispered
the farmer as he pointed to the
ceiling.

"What do you mean—rats?"

"Rats be hanged! I mean Will
Bones and our Sarah. Didn't you
hear they got married day before yes-
terday?"

"N-n-o!"

"Just got fined together and made
one, and you never saw a rooster and
hen more happy. Help yourself to the
fodder there. We didn't make much
of a spread, but you'll find currant
wine and sweet cake."

"But why aren't they down here to
be congratulated?" I asked.

"Natural modesty, Abe, natural mod-
esty. When ma shook the rag to bring
you in they both dusted upstairs. Now,
about the poetry."

"What poetry?"

"Don't ask questions, but sit down
and turn the crank. Do you think we
are going to let such an event as this
pass without some of your poetry?
Why, you wrote us eight verses the
time our old cow got mired in the
swamp."

William and Sarah.
Thus appealed to, I sat down and
wrote:

'Twas William Bones and Sarah Jones
Who Sunday went a-walking;
They wandered here, they wandered
there;
Of love they were a-talking.

'Twas William Bones and Sarah Jones
Who reached the raging river,
And as they gazed upon its flood
They shivered a cold shiver.

'Twas William Bones and Sarah Jones
While gazing on the water
Got nearer to the river's bank
Than anybody orter.

Then William Bones and Sarah Jones—
They took a sudden header.
The bank caved in—a splash, a scream;
'Twas into this he led her.

But William Bones caught Sarah Jones
In arms that never faltered
And brought her safely to the shore,
And thus was Cupid haltered.

Then William Bones and Sarah Jones
Knew that they loved each other,
And matrimony followed, and
The one's the same as t'other.

Now, William Bones and Sarah Jones
They could have done no better,
But for that plunge into the stream
They'd never got so wetter.

"Say, ma," whispered the husband
As I finished reading the verses and
looked up, "do you know who's going
to be the next president of the United
States?"

"Honest Abe, of course," she prompt-
ly replied.

"You bet your black stockings! And
now you get four rolls of butter out of
the cellar for him to take along with
him. Butter and poetry jest fit each
other."

M. QUAD.

Unarming.
Mother-in-Law—Has the young man
who saved my life yesterday called
upon you yet?

Son-in-Law—Yes, indeed, he has al-
ready made his apologies.—Translated
For Transatlantic Tales From Flie-
gende Blätter.

The Distant Relative.
"The Parkers have all gone into deep
mourning for a very distant relative.
Don't you think it's a sign they're
rich?"

"No. It's a sign that the distant re-
lative was rich."—New York Life.

He Suited Her.
"The man I ever wed," she said,
"Must have accomplishments.
Yes; he must play, and sing, and dance,
And ride, and row, and fence,
And take a skilful hand at bridge,
A tennis racket wield,
And chase the bounding golf ball, too,
Across the dewy field.

The man who won her lily hand
Was bald and stout and slow;
He couldn't sing, or dance, or play,
Or fence, or ride, or row;
He didn't care a rap for golf
And never led colitions.
But he could sign a check, you see,
For half a dozen millions.
—Minna Irving in New York Herald.

Adoe Denies the Report.
Washington, July 8.—Acting Sec-
retary of State Adoe denied that the
United States government has made
any overtures or contemplates any
negotiations for the purchase from the
republic of Mexico of a naval site on
Magdalena bay, in Lower California.
The government has no idea of mak-
ing any such proposition to Mexico,
he said.

Farmers, mechanics, railroaders, la-
borers rely on Dr. Thomas' Electric Oil.
Takes the sting out of cuts, burns or
bruises at once. Pain cannot stay where
it is used.

FOR CRUISING ON LONG ISLAND SOUND AND FLORIDA WATERS.

MR. RALPH S. TOWNSEND'S NEW CRUISING POWER YACHT

NEW YORK, July 6.—Contracts have been signed for the construction of an unusually comfortable and roomy power boat. The new boat will be built by the City Island Shipbuilding Company, from plans prepared by Henry Gielow, for Ralph S. Townsend.

The yacht will have a water line length of 68 feet 9 inches, and will be 7 1/2 feet over all.

The Ancient Art Of Helping Yourself.

Ever go to a Sunday school picnic when you were a boy?
Course you did.

Remember how all the women folks used to spread the
tablecloth out on the grass, then dump 'em thick
with the best eatables you ever ate? My! Fried chicken 'bout
every two foot, with roll
jelly cake in between.
Well, yes!

Recollect how the Su-
perintendent would stick
his handkerchief under his
collar and say cheerfully:
"Now all help your-
self!"

Then everybody fell to
and helped himself. If
you were a timid boy and
held back till all the chick-
en was gobbled up, you re-
gretted it—you regret it
still. You didn't help
yourself, and nobody else
helped you.

Remember that picnic
when the gang of fellows
from the city happened
along and lit into the fried
fowl? City chaps are al-
ways hungry. They help-
ed themselves, and there
wasn't anything left for
the town boys but the
bones.

Life is a picnic. Not a
Sunday school picnic—not
exactly. But it's a picnic dinner all the same. The feast is
spread for you. Everybody help himself now!

SUPPOSE YOU'RE A MERCHANT IN THIS
TOWN. THERE'S FRIED CHICKEN AND ROLL
JELLY CAKE ALL AROUND YOU, BUT YOU LET
THE CITY CROWD COME IN AND SNATCH IT
RIGHT FROM UNDER YOUR NOSE. ALL YOU
GET IS THE BONES AND SCRAPS.

The city fellows are helping themselves. They reach out
long fingers—the mail order monthly and the price catalogue
—and pick up the choice bits. Why don't you try a few fingers
of advertising in your local paper, dive in ahead of the gang
from outside, get there first and help yourself to the chicken?
"Now all help yourself!"

DEATHS AND FUNERALS

MRS. MARY M. STICKLE.

Mrs. Mary M. Stickle, wife of Mr.
George Stickle, a well known and
highly respected woman of this city,
died at her home, 306 Beech street,
in the North End, at 2:30 o'clock
Sunday after an illness of two weeks,
aged 47 years, 9 months and 2 days,
and is survived by her husband and
four sons, Jonah, Earl, Ira and Ar-
thur, all of whom live in Newark,
and her parents, Mr. and Mrs. David
Coffman of St. Louisville. The de-
ceased was a member of the Church
of Christ and was also a member of
the Ladies of the Maccabees. The fu-
neral services will be held at the
Church of Christ on Fourth street, on
Tuesday morning at 10 o'clock, Rev.
Mr. Thompson officiating, and the in-
terment will be made in Cedar Hill
cemetery.

MRS. WINIFRED JONES.

The funeral of Mrs. Winifred Jones
who died Saturday at the home of
her son, Mr. David Jones, took place
Monday from the Jones residence, at
215 North Fifth street. Rev. Thomas
Warner officiated, and the interment
will be at Cedar Hill.

Mrs. Jones was aged 97 years, and
was probably the oldest resident of
Newark at the time of her death. She
died from infirmities incident to old
age and was up and around until a
few days ago. She was born in Wales
97 years ago, and 50 years ago came
to this country with her husband,
Evan Jones, who has been dead for
12 years. They settled in Newark,
where they always afterward resided.

Mrs. Jones was a faithful member
of the Welsh Congregational church,
and everyone of her large circle of
acquaintances will deplore her de-
mise. The deceased is survived by
one son, David, with whom she made
her home, two grandchildren, Louis
and Mary Jones.

CHARGES FOR OBITUARIES
AND CARDS OF THANKS.

Readers will kindly take notice
that there is a charge of five cents a
line (six words to the line) for all
obituaries exceeding 15 lines, (90
words). We print all obituaries less
than 15 lines in length free of
charge. Cards of thanks we charge
five cents a line (six words to the
line). The minimum charge for card
of thanks is 25 cents.

AN AUTO ACCIDENT

At about 4 p. m. Saturday, while
Dr. A. V. Davis the dentist, was tak-
ing 3 small children a ride in his au-
tomobile, he attempted to turn
around on West Main street near the
intersection of Fifth street, and un-
expectedly whirled about directly in
front of an approaching interurban
car that was coming eastward. The
back of the auto was struck and the
machine thrown violently off the
track, sustaining a damaged axle,
while all the occupants were severely
shaken up, but no one was hurt.

The car had the pilot knocked to
one side showing how hard the im-
pact was, and indeed all the parties
concerned, particularly Dr. Davis,
feel glad the affair turned out so
luckily.

The cars run too fast through the
city, and the automobilists are too
careless, and it would be well for the
city council to at once pass ordi-
nances regulating speeds and defining
their right, and see that such regu-
lations are enforced, and that, too,
without delay.

Girl Assaulted.

Pittsburg, July 8.—Elizabeth Meds-
gar, 14, the daughter of wealthy res-
idents of West Newton, Pa., was as-
saulted by a man for whom the au-
thorities and parties of citizens are
now searching. The condition of the
girl is serious, and lynching is threat-
ened. From the girl's description of
her assailant the authorities are satis-
fied of his identity.

Fire at Pittsburg.

Pittsburg, July 8.—One man was
killed, another seriously injured and
\$15,000 damage done by a fire in the
South Side district. The fire started
in a barber shop and spread to four
adjoining structures. The Bell tele-
phone exchange was damaged.

Successful Baking

A Talk
with Housewives

If you want to have light, tempting,
appetizing biscuits, waffles, griddle
cakes, doughnuts—delicate and deli-
cious cakes, and all the other good
things in which baking powder is
used, try Egg Baking Powder.

Egg Baking Powder insures suc-
cessful baking. Your quick steps in
the haste of preparation or the ac-
cidental slamming of the oven door will
not result in fallen cake or heavy
biscuits.

Egg Baking Powder is made from
dried white of egg and wheat phos-
phates. When water is added, the
resulting leavening gas is caught and
held in tiny globules by the egg albu-
men, and it can't get away until your
baking has progressed far beyond the
danger line where ordinary baking
powder "goes dead."

These are facts which a trial will
prove. Another thing that's mighty

important is that Egg Baking Powder
has no cream of tartar, tartaric acid,
alum or other harmful substances
found in ordinary baking powders,
that keep the digestive organs in a con-
stant state of irritation and cause Dys-
pepsia. We will give \$5,000 to anyone
who can prove that this is not abso-
lutely true.

Bad baking powder causes many a
kitchen tragedy. Think of company
coming for dinner and the baking
fallen flat! Biscuits like bricks! Cake
ruined! Muffins wearing a soggy
look! Only a lot of uninviting and
indigestible cookery to show for a
whole day's work and worry. No
danger of this if you use "Egg."

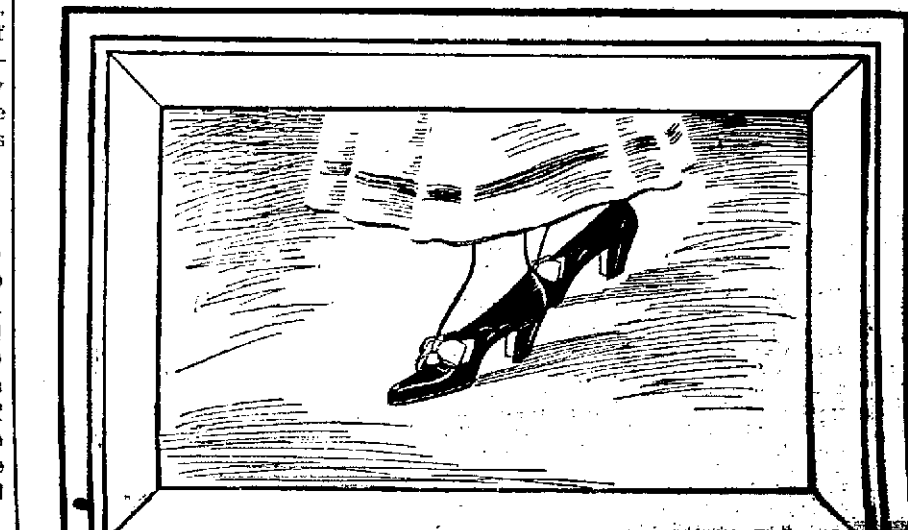

You save one-third the eggs and all
the worry when you use sweet, pure,
wholesome and nourishing Egg Bak-
ing Powder. Best grocers sell it.

Write us for the Egg Cook Book—it's
FREE.

SUNDAY'S RESULTS.

Newark 7, Mansfield 5.
Lancaster 5, Marion 2.
Sharon 3, Youngstown 2.

TODAY'S GAMES.

Newark at Youngstown.
Lancaster at Sharon.

TOMORROW'S GAMES.

Newark at Sharon.
Lancaster at Youngstown.
New Castle at Akron.

Hard luck, coupled with Newark's sensational hitting at the right time, proved too much for the Mansfield Tigers under Manager Carl McVey, at Wehrle Park Sunday afternoon.

Any team in the circuit but Mansfield, that would rally in the tall end of the game and bat out two clean singles and two clean triples and be presented with three passes to first, all of which would net them five runs, giving them a lead of three, would have won out, but not so with Mansfield. The Jonah Man was certainly with them. Of course there is a great deal of credit due the Molders for their batting rallies after Mansfield got their runs. They were necessary, these rallies, and they came at the right time. It was good, clean hitting that did the business.

Manager Berryhill, the man on the mound, is entitled to sympathy. He didn't seem to have anything but the proverbial "smile" and a heart full of hope but nevertheless he pitched good ball until the sixth and then his nerve was shaken by the determined look which was noticeable in every Molder's face as he stepped to the plate.

Yarnell had heard of that determination before and knew what it foreboded. Could he be blamed for getting nervous? Even Big Asher's smile was not accompanied by the twinkle in his eye in that awful bombardment in the sixth. It was enough to make the chills crawl up anyone's spine.

Newark's team was likened to a nine composed of hospital patients. Asher worked in Wednesday, Thursday's and Friday's games last week and rested Saturday. Then he was the only pitcher in the bunch who was fit to work Sunday. Stoup's arm was sore and Locke is out with a twisted knee. Haval was out of the game, having suffered a serious injury at New Castle. Bunny Pearce was hardly able to get around, having been injured again on the trip. Scottie Winter's arm is bothering him and other members of the team were not in the best of shape. Yet they won the game. It was the timely hitting that did it.

Umpire Smink was also off color. He knifed Asher several times on balls and strikes, but Yarnell escaped without much damage. If Mr. Smink repeats any of his Zanesville performances he may be hunting for another job soon.

Angel Spease, the Tigers' left fielder, the one man on the Mansfield team who has not had an off day this season, must have had his path crossed by a black cat on the way to the park. He dropped one easy chance, misjudged another fly ball that gave Pearce a double, and fumbled another fly after a hard run across left field to deep short.

But taken as a whole, the game was slow, and yet Newark really did outplay the Tigers, and deserved to win for that reason.

The Scores.

Not until the second frame was there anything done in the scoring line. Smith opened by working Yarnell for a pass. Murray sacrificed him and Gygli doubled, scoring Smith. Pearce was on hand with a timely single to center which scored Gygli, and Bob Berryhill was caught at second trying to steal, while running for Pearce. Asher fanned.

Berry opened the sixth with a terrific drive to center. Schwartz was playing in right center for Berry's hit, and instead of dropping in that territory, it went straight for the corner in center field. With a slow, er fielder, it would have been a home run.

The Cheese Man threw to Snyder, who relayed it to third, but Smith muffed the throw and Berry scored. Murray took care of Spease's high fly and Drake singled. Tibbitts got one in the basement of his uniform and King walked. This filled the bases again.

Then came the awful swat of M. Delehan's. Schwartz was again playing in right center, and Del's hit dropped in the same place. Bert Biery's had dropped. Everybody scored and Mansfield had a lead of three runs. Reynolds' single to left scored Del and Zeke stole second, sliding around Wratten with the ball. Graymair walked and was caught at second on Wratten's fielder's choice on Yarnell's infield grounder. Biery again came up, and things looked gloomy, but he hit into Schwartz's mit and the agony in that frame was over.

Newark Ties the Score.

The loyal fans—bless them—instead of calling for the derrier on Asher, immediately came to the team's aid, and no doubt their terrific rooting helped the locals win out.

Wratten opened with a single to left field. Schwartz walked, and Smith singled to left field, scoring Wratten. Murray bunted to Biery and Gygli fanned. Yarnell did not care to take a chance on Pearce and walked him. Asher saw visions of a defeat marked up against him and he did not do things, and he snatched a sizzling drive between King and the bag, scoring Schwartz and Smith. Biery got Abbott's grounder to first, and Newark was compelled to be content with tying the score in that frame.

Stoup Warm's Up.

Manager Berryhill took Mr. Stoup down by the score board and gave him a good warming up, to be prepared for any emergency. But Mr. Asher had his bad inning, and Stoup was not needed. Drake's scratchy single on Wratten's low throw to Gygli from deep short was the only thing resembling a hit that Mansfield got after the sixth.

Zeke Reynolds made a great catch of Snyder's fly, that was tagged for a safety in the seventh, and there was nothing more doing.

In the seventh Mr. Smith singled cleanly to right field. Murray tried to sacrifice, but Smith was caught at second by Yarnell's splendid throw.

Sandy pliffed second nicely and Gygli singled to short. He stole second without interference, and then Bunny Pearce drove one over Spease's head. Angel could probably have gotten under it, but the sun was low and it bothered him. Anyway it went for a double, and Murray and Gygli both chased home, placing Newark two runs to the good.

Asher's long drive to middle was pulled in by Drake and Abbott ripped off a nice hit to center. Drake whipped the ball to Hezzy Brey-maler quickly, and Winters, who was running for Pearce, was caught three feet away from the rubber. That was the end of the scoring as far as Newark was concerned. Yarnell flew to Abbott in the ninth and Biery got a life on Abbott's error. Spease got hit in the stats, which placed two on the bags, with but one down.

Sandy Murray timed Drake's grounder nicely and grabbed it in time to catch Spease and throw to first to catch Drake. It was a clever play and came as a nice climax to the game.

Asher was happy. His game was won after it had apparently been lost.

Again was it demonstrated that the Molders are never whipped.

They have shown that spirit right along for several days.

Time—2:10.

Umpire—Smink.

Attendance—2000.

SUNDAY'S GAMES.

Lancaster 5, Marion 2.

Marion, July 8.—Lancaster defeated Marion by the score of 5 to 2 in a listless game of ball Sunday.

Wilhelm and Justus, the opposing pitchers, were wild. Tate's error in the third, together with two hits, two bases on balls and a hit baseman, netted Lancaster four runs. The players were arrested during the early part of the game. Score: Lancaster 5, Marion 2.

Youngstown, July 8.—With two down in the ninth Youngstown rallied and scored a run, but the game's finish did not come. Hilley started it and Blount contributed a double. Sharon's run that won, it proved, was on a base on balls, an error by Ostdeik and a hit by Cleveland. Score: Youngstown 5, Sharon 2.

Batteries—Smith and Ostdeik; Strom, Mock and Matteson. Umpires—Bannon and Latham.

The Meridith team shut out the Jewetts in Sunday's game, Manager not allowing a hit.

BLACK HAND WINS AGAIN.

The Black Hand Stars defeated the Zanesville Grays Sunday in an interesting game by a score of 10 to 0. Score: Black Hand 0 0 1 1 2 0 2 1 x—10 Zanesville 0 0 0 0 0 0 0 0—0

OLD PLAYER HERE.

C. W. Gallacher, of Wheeling, agent for large shoe houses is in the city on business. He took in the ball game Sunday and is a great enthusiast. The gentleman is an old player, having played several years ago on the Wheeling team in the Interstate league, and has several friends in the Mansfield team.

CHAMPS QUIT IN LAST FRAME LIKE WHIPPED CURS

NEWARK GOES 12 INNINGS WITH YOUNGSTOWN AND GIVES AWFUL BEATING.

Disgusting Exhibition of Baseball Put Up by Soft-Spoken Champions—Locals Played Well.

Youngstown, July 8.—In a farcical finish of a thoroughly disappointing attempt at a ball game Saturday afternoon, after three hours of all sorts of playing and but one kind of umpiring and a very poor brand at that, Newark was presented with such a contest that it may be hoped will never take place in Willis Park again.

Umpire Bobby Hart, captain of last winter's polo team, was directly responsible for the affair. President Morton's judgment in only assigning one umpire, and he a man who makes his living here, to pre-empt over such a crucial series, was largely responsible for the poor satisfaction given those fans who had paid their two bits to see baseball. But that fact didn't prevent many of them from expressing disgust when the local players started to play for darkness after one of Hart's.

Objectionable Decisions.

Hart's trouble, which commenced in the first game of the series, came to a climax early Saturday afternoon when he broke all records and ejected "Curley" Blount from the game. With the rule already running strongly against the locals it was worth hit to left in the third frame. He endeavored to make second base, and slid into the bag apparently safe, but Hart called him out. Blount didn't kick very strenuously unless he has good cause, but he jumped to his feet and started after Hart, who had turned to take his position behind the pitcher. Grabbing the umpire's chest protector he attempted to turn him around to listen to the kick.

"You get off the field!" yelled Hart. For a moment the fans and Blount himself were stunned. The little feller was never put out of a game before, and the ump's couldn't have taken a move to make himself more unpopular with Youngstown sportdom.

A Howl of Rage

was quickly followed by a lemon from the bleachers which rolled to Hart's feet and when he took his place behind the catcher a pop-bottle sung dangerously close to his head. Never had an O. P. umpire been the recipient of such attentions here.

From then on Bobby showed indications of trying to even up. First, Newark and then Youngstown delegations gathered around him. He lost all control of the players and became sadly frustrated. Things went on from bad to worse. After the sixth inning both teams settled down and battled vigorously for victory. Ladde Linke and Thomas worked like beavers and shut off scoring for five rounds.

Then came the awful finish. Snyder first up, walked, although Redman in vain asserted that two of the balls called on him were strikes. Wratten laid down a bun toward first. McAleese gathered it in and threw to Breen, covering the bag. The ball struck Wratten and bounded toward the end of the bleachers. Snyder scoring. Jack claimed that Wratten ran inside the baseline but Hart wouldn't admit it.

In wrath the first sacker started for the bench, apparently about to quit, but instead only to get a drink out of the water pail and slowly returned to his place.

Then the dilly dallying commenced. First and third sacks were discovered to be off their pegs. Billy Thomas deliberately walked. Schwartz and Havel. Murry hit to right. Lawrence took his time returning the ball, and a couple more scored. Redman and McClintock threw it around until five had counted altogether. Then Gygli, Winters and Locke managed to strike out. Billy Thomas and Redman fanned and McAleese hit to center only to be forced at second by Starr. The exhibition was over.

Newark started out to win the game in the first. Abbott walked and went to second on Snyder's sacrifice. Billy Thomas threw to center field trying to catch him, and Abbott was on third. Breen ran up and tried to stop Wratten's grounder short to throw Abbott out at the plate, but the ball bounded badly.

shying off his leg, and although Starr recovered in time to retire the batter, Abbott scored. Schwartz hit safe and went all the way to third on Ostdeik's high throw trying to catch him stealing. Haval singled, sending in the second run, and was forced by Murray at second for the third out. Snyder opened the third with a single and scored on Schwartz's double.

A. C. McClintock's timely hit sent in Starr with the Champs' first run. Charlie walked in the fourth, went to second on Breen's out, and to third on Will Thomas' long fly to center. But the captain's low throw to first gave Newark two in the sixth. Gygli walked and was advanced by Winters. Linke singled, and after Abbott had died, Breen to McAleese.

Starr mishandled Snyder's grounder. Youngstown tied the score in the sixth when Umpire Hart announced that Starr, first up, had beaten out a throw to first. Breen hit cleanly to center and on Will Thomas' fly to middle Charlie went to third. McClintock, the timely hitter of the game for the locals, singled over second bag and Starr scored. Ostdeik hit to third and Wratten bluffing to throw to first, caught Breen off, but in trying to catch Dicky on the base line, Winters threw to left field and Breen and McClintock tallied, Ostdeik going to third. He scored the tying run on Lawrence's long fly.

In the tenth the Sammites almost, but not quite, prevented the 12th inning agony. McAleese was hit for the second time and Starr advanced him. Jock stole third, but Breen popped to second, and Will Thomas flied to center. The score:

SATURDAY'S GAMES.

Akron 10, Mansfield 8.

Akron, July 8.—The Akron team won its fifth successive game Saturday afternoon, downing Mansfield twice. Fifty hits were made in the two games for a total of 35 runs. The visitors caused a scare in the seventh inning by scoring seven runs with the score 9 to 1 against them. The second game was called at the end of the seventh inning by agreement. Score:

Akron	5	2	0	1	0	1	x	—10 15 0
Mansfield	1	0	0	0	0	7	0	—8 15 1

Batteries—Armstrong, Kennedy, Price and Lalange; Edfeldt and Brey-maler. Umpires—Smink and List.

Mansfield	0	3	1	2	0	0	x	—6 7 3

OUT OF TOWN

By Byron Williams.

In the golden summer weather
When the clouds float light together,
An' the sky is wearing tapestries o' haze—
When the sunbeams are so yellow
That they almost burn a feller
As he hikes along the pavement hot a ways—

In the torrid summer weather
When the lilies break from tetter,
Noddin' white upon the water's buoyant breast—
When the woods are real invitin'
When the rabbits go a-skinin'
An' the turtle dove croons softly on her nest—

Then 'tis time to sort o' wander
To the sun-kissed hills out yonder,
Where the zephyrs are a talkin' to the breeze—
Just ferget yer work an' worry
Where the country, sweet and purry,
Blows the cobwebs from yer brain cells on the breeze!

There are pastoral scenes—and quiet—
Even though you have to buy it
At steepen dollars by the week of cash
There the air is pure as honey,
There you breathe away your money—
"out of town!"

Copyright.

FURNITURE DEALERS
WILL HAVE A PICNICColumbus Odd Fellows and Cambrian
Club Also Arrange For Lake
Outing.

The fifth annual outing of the Columbus Retail Furniture Dealers' Association will be held at Buckeye lake on July 19. In addition to all the retail furniture dealers of Columbus, the dealers from Newark, Zanesville, Marysville and Delaware will attend the picnic.

In addition to the regular amusements and field sports the program for the occasion includes baseball games between teams representing Newark and Columbus and between teams selected from the northern and southern parts of the capital city.

All members of the association will close their stores all day on the 19th, and the few retail dealers not belonging to the association have been invited to close their places of business and attend the outing. C. R. Parish is president of the organization. The Cambria Club will picnic at

Buckeye lake Tuesday and plans for a pleasant outing have been made. Dennison Lodge No. 741, I. O. O. F. will hold their annual outing at Buckeye lake on Thursday, July 18. The committee on arrangements is as follows: G. E. Badger, S. J. Neely, and L. B. Edwards.

Billious? Feel heavy after dinner? Tongue coated? Bitter taste? Complexion sallow? Liver needs waking up. Doan's Regulator cures bilious attacks. 25 cents at any drug store.

SALOONIST LOCKED UP.
Mt. Vernon, July 8.—Richard Creedon, a former saloonist here, was locked up in the county jail Friday afternoon by Sheriff Clements to serve a sentence for violating the provisions of the Beal law in Mt. Vernon over two years ago. Creedon's case was fought through the Common Pleas court and carried to the Circuit court last week. Creedon was given several days in which to raise the money. The fine and costs in the case amount to about \$165.

The cork tree has a good bit of bark, but the dogwood should have more.

Among people who are at war with themselves the casualties are seldom severe.

Ordinance No. 1806.

Determining to proceed with the improvement of Fulton avenue, from the first alley north of West Main street to Camp street, thence east on Camp street and an alley to Bowers street, thence north on Bowers street to Racoon Creek, by constructing a drainage sewer therein.

Be it ordained by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is hereby determined to proceed with the improvement of Fulton avenue, from the first alley north of West Main street to Camp street, thence east on Camp street and an alley to Bowers street, thence north on Bowers street to Racoon Creek, by constructing a drainage sewer therein, in accordance with a resolution declaring it necessary to improve Fulton avenue, from the first alley north of West Main street to Camp street, thence east on Camp street and an alley to Bowers street, thence north on Bowers street to Racoon Creek, by constructing a drainage sewer therein, passed on the 20th day of May, 1907, and in accordance with the plans and specifications, estimates and profiles heretofore approved, now on file in the office of the Board of Public Service.

Sec. 2. That the said materials used in the construction of said improvement shall be 12-inch vitrified clay or shale sewer pipe for the main sewer, 6-inch house connections brick manholes and catch basins with proper cast-iron covers.

Sec. 3. That all claims for damages resulting from the said improvement shall be judicially inquired into before commencing said proposed improvement and the Solicitor is hereby authorized and directed to institute proceedings in the court of competent jurisdiction to inquire into such claims.

Sec. 4. That the whole cost of said improvement less one-fiftieth thereof and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands, to wit:

All lots and lands abutting and abutting upon the proposed improvement, which lots and lands are hereby determined to be specially benefited by said improvement and the cost of said improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenditures.

Sec. 5. That the assessments so to be levied shall be paid in 5 annual installments at 5 per cent per annum, provided that the owner of any property assessed may at his option pay such assessment in cash within thirty days from and after the passage of the assessing ordinance, in which case such cash assessment shall not include any item of interest upon bonds to be issued in anticipation of the collection of deferred assessments.

Sec. 6. That the bonds of the City of Newark, State of Ohio, shall be issued in anticipation of the collection of assessments by installments and in an amount equal thereto. That the remainder of the entire cost of intersections, together with the cost and expense of any real estate therein purchased or appropriated and the cost and expense of appropriation proceedings therefor, and the damages awarded any owner adjoining lands and the cost and expense of any such award, shall be paid by the issuance of bonds in the manner provided by law.

Sec. 7. That the Board of Public Service be and the same is hereby authorized and empowered and directed to make and execute a contract for said improvement with the lowest and best bidder after advertisement according to law.

Sec. 8. This ordinance shall be in force and take effect from and after its passage and legal publication.

Passed July 1, 1907.

S. H. BEADLE,

President of Council pro tem.

Attest: LINCOLN B. MURCH, Clerk.

Approved by the Mayor this 2d day of July, 1907.

SAMUEL H. McCLEERY, Mayor.

July 8-15.

Ordinance No. 1805.

Determining to proceed with the improvement of Union street from a point known as "Buehler's Corner" connecting with West Main street, thence southerly to the intersection of Pine street, by paving and curbing the roadway thereof.

Be it ordained by the Council of the City of Newark, State of Ohio, three-fourths of all the members elected thereto concurring:

Section 1. That it is hereby determined to proceed with the improvement of Union street from a point known as "Buehler's Corner" connecting with West Main street, thence southerly to the intersection of Pine street, by paving and curbing the roadway thereof, in accordance with a resolution of Council, passed on the 7th day of January, 1907, and in accordance with the plans, specifications, estimates and profiles heretofore approved and now on file in the office of the Board of Public Service.

Section 2. That the material used in the construction of said improvement shall be asphalt, brick, stone, cement, or other material as shall be hereafter determined.

Section 3. That all claims for damages resulting from the said improve-

ment shall be judicially inquired into before commencing said proposed improvement, and the Solicitor is hereby authorized and directed to institute proceedings in the court of competent jurisdiction to inquire into such claims.

Section 4. That the whole cost of said improvement less one-fiftieth thereof and the cost of intersections shall be assessed by the foot frontage upon the following described lots and lands, to wit: All lots and lands bounding and abutting upon the proposed improvement from a point known as "Buehler's Corner" connecting with West Main street, thence southerly to the intersection of Pine street on Union street, which lots and lands are hereby determined to be specially benefited by said improvement; and the cost of improvement shall include the expense of printing and publishing notices, resolutions and ordinances required, and the serving of said notices, the cost of construction, together with the interest on bonds issued in anticipation of the collection of deferred assessments, and all other necessary expenditures.

Section 5. That the assessments so to be levied shall be paid in 20 semi-annual installments, with the interest on deferred payments at 5 per cent per annum, provided that the owner of any property assessed may at his option pay such assessment in cash within thirty days from and after the passage of the assessing ordinance, in which case such cash assessment shall not include any item of interest upon bonds to be issued in anticipation of the collection of deferred assessments.

Section 6. That the bonds of the City of Newark, State of Ohio, shall be issued in anticipation of the collection of assessments by installments and in an amount equal thereto. That the remainder of the entire cost of said improvement not specially assessed, including the cost of intersections, together with the cost of any real estate therein purchased or appropriated and the cost and expense of the appropriation proceedings therefor, and the damages awarded any owner of adjoining lands and interest thereon, and the cost and expense of any such award shall be paid by the issuance of bonds in the manner provided by law.

Section 7. That the Board of Public Service be and the same is hereby authorized and directed to make and execute a contract for said improvement with the lowest and best bidder after advertisement according to law.

Section 8. This ordinance shall be in force and take effect from and after its passage and legal publication.

Passed July 1st, 1907.

BASEBALL NEWS

(Continued from Page 6.)

learn how to support a team by loyal rooting and the writers there earn how the make a league prosperous by boosting it all the time, not knocking the various teams in the league. Things might break better for Sam Wright's men.

The Molders are perfectly willing to let the Champs go on fearing Lancaster. We can beat both teams. We have won six games out of ten from the Champs and three out of five from the Lanks. We have broken even with Akron, winning six and losing six. We are satisfied.

With the Molders in shape, we fear neither the Lanks, the Champs, East's bunch, nor New Castle. Not to mention Sharon and Marion. Advice is cheap, but we might suggest to the State Journal that they have the wooden headed individual who writes their Sunday dope to look over the records and see who is playing ball.

CLAY LICK DEFEATED.

In a hotly contested game Sunday at Clay Lick, between Clay Lick and Brooklyn, the latter won out by the score of 16 to 10. Batteries: For Clay Lick, Coughlin, Hickey and Baggett; for Brooklyn, Martin and Martin. Umpire, Claggett.

HOLLANDS-WILSON.

Invitations have been received by relatives and friends here to the wedding of Mrs. Benna Wilson and Mr. Edmund Hollands at Fishkill-on-the-Hudson on July 24. Miss Wilson is the sister of Mr. Benjamin S. Wilson, formerly of this city, but who now conducts a school for boys at Fishkill-on-the-Hudson, and she is a sister of Mrs. Edward Kibler.

Mr. Hollands is a professor at Cornell university. They will make their home at Ithaca, N. Y.

ROBINSON-DELANCEY.

Saturday evening, July 6, Mr. John B. Robinson of this city, and Miss Flora M. Delancey were joined in marriage. The ceremony was performed by Rev. L. C. Sparks at his home on North Fifth street. Mr. J. Monroe of Columbus, a special friend of the contracting parties, was present to witness the marriage.

FARA-PANTE.

On Monday afternoon Squire Lee S. Lake united in marriage Mr. George Fara and Miss Floreka Pante, both natives of Hungary. The couple will make their home in the Wehrle addition, the groom being employed at the foundry.

MUNICIPAL UNLACY.

Edited by JOHN KENDRICK BANGS.

The citizens of New Loudon, Mo., recently declared against municipal ownership by a vote of 160 to 2. Thus again do we find the people deprived of their rights by a corporation ridden majority.

We do not credit the report that New York intends to place its most accomplished bunks steers in the pilot houses of the municipal ferry. It is more likely to get its helmsmen from the League of American Wheelmen.

An inquirer wants to know why a professor of Latin and Greek should not become a capable superintendent of a municipal cemetery. We see no good reason why he shouldn't, except that his familiarity with dead languages would be apt to put him on such chatty terms with his tenants that he would neglect his business.

A friend of ours has discovered that this talk about depreciation in street car lines is all tommyrot in so far as the cross-town lines are concerned anyhow. It is a well known fact, he says, that these lines never run down. They run across. We respectfully submit this argument to their honors the city fathers.

Without wishing to be at all invidious, we would call attention to the interesting acoustic furnished by the Municipal Ownership Bubble, which, strangely enough, signifies the ultimate ownership of public utilities under the municipal ownership idea. Try it and see:

Municipal
Ownership
Bubble.

A Detroit alderman wants Detroit to go into the making of bricks. In a recent speech he declared that "we are in the grasp of the brick trust, when we could manufacture prices 100 per cent if we could reduce our own brick." It is a pity the learned gentleman could not have figured out a reduction of 110 per cent, for then Detroit could have made bricks not only for nothing, but coined a premium of 10 per cent as well. The free cologne of bricks would be an interesting economic diversion.

A request for the last annual report of the municipal electric light plant in a Michigan town of less than 2,000 inhabitants elicited from the manager the laconic reply, "About three thousand in the hole last year." The situation can be relieved, however, by the prompt action of the common council in passing an appropriation of \$3,500 for the purpose of the hole on behalf of the park department, thus showing a profit of \$500 on the books of the lighting commission.

The municipal pawnshop of Liege, Belgium, is not as popular as it was expected to be. The hope that being conducted for the people by the people to lend money as the collateral of the people a man could borrow \$500 on \$4.50 worth of jewelry has not been realized.

A French Telephone Experience. The San Francisco Chronicle is responsible for the following item in regard to Nantes, France:

Some years ago there was a private telephone system which the paternal government took over. After some years' trial the government has just received a petition signed by 10,000 persons, each of whom pays at least \$80 a year for telephone service, requesting that the telephone system be sold to some private company, because under a private company they got far better service, were treated with politeness instead of insolence and had complaints attended to instead of being ignored.

British Lighting Plants Sold. By a vote of 41 to 2 the Bath city corporation has decided to sell the municipal lighting plant, which it purchased in 1896. As this had been run at a loss, even without allowing for depreciation, the sale will result in an immediate reduction of local taxes.

The Irish Independent states: "The Bray urban council have decided to offer for sale their electric light works, which have been run at a very heavy loss, while the cost of public lighting was in excess of that of Dublin, although the lamps were only lighted for a third of the time they were in the metropolis."

The Dublin municipal plant, however, was run at a loss last year of over \$20,000, irrespective of depreciation, which would have brought the loss up to \$50,000.

A Losing Game. The city council of England, Ark., has passed an ordinance leasing the municipal electric light and water plants for six years. An anomaly as to the cause of this action brought the following reply:

"The reason that the town wanted to lease these was because for it to operate them was a losing game, and it could not afford it."

The Telephone In Greece. According to the United States consul at Athens, the telephone service in Greece is restricted, and a source of loss to the government. He believes that private enterprise, if well backed financially, could obtain a favorable concession from the Greek parliament on condition it undertook to install and work an efficient system. — Electrical Times.

Time and tide wait for no man, but you can't make a woman believe it when she is putting on her hat.

The trouble with money is that there are so few ways to make it and so many ways to spend it.

Severe Pains

When a prominent nerve is affected, the pain is severe. It is called neuralgia. It may be in either the head or body. Relief comes only when this nerve trouble is overcome. By its soothing and strengthening influence upon the nervous system Dr. Miles' Nervine removes the cause.

"It was about two years ago that I was taken down with what the doctors claimed was neuralgia, and some called it lightning rheumatism. Sharp pains would go from one place to another, mostly in my head and they would last two or three days before I could get relief. During these spells I would be so nervous that I hardly knew what I was doing. The pains were so severe and exhausting that my husband would have to steady me when walking across the room. I would have fever, and my heart would palpitate, and in a day or two I would feel better. Just as soon as I would expose myself the very least I was sure to have a spell of neuralgia. I have taken lots of doctors' medicine, but I might just as well take water. My aunt kept writing me to try Dr. Miles' Nervine, and I am thankful that I was persuaded to do so, for the Nervine has cured me—has driven it out of my system."

2122 Savannah Ave., St. Joseph, Mo.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

JOHN M. SWARTZ,
Attorney-at-Law.

Practices in all Courts. Will attend promptly to the business entrusted to him. Special attention given to collections, administration of estates, accounts of administrators, executors, guardians and trustees, carefully stated and attended to. Special facilities for obtaining patents in all countries. Office over Franklin National Bank.

SALMON P. CHASE—1857-1860.

Salmon P. Chase was elected governor of Ohio by the then newly formed Republican party in 1856, serving two terms. In politics he was a Democrat, but his strong anti-slavery sentiment caused him to join in the organization of the Liberty party. He graduated from Dartmouth college in 1826 when eighteen, having taught school to defray the expenses. He taught a classical school while studying law in Washington. He began the practice of law in Cincinnati in 1830. In 1849, by the votes of the Free Soilers and the Democrats, Mr. Chase was sent to the United States senate. Mr. Chase became secretary of the treasury under President Lincoln, resigning this position in June, 1864, and was confirmed as chief justice of the United States on the nomination of President Lincoln. He continued in this position until his death on May 7, 1873.

Enjoy the Delights of a Lake Trip

Spend your vacation on the Great Lakes and travel via the large, safe and comfortable steamers of the D. & C. Line. Your local ticket agent will sell you through tickets via the D. & C. Line to all Great Lake Resorts. A month's new steamer costing \$1,200,000.00 will be in commission between Detroit and Cleveland for season 1907.

PRINCIPAL NEWS OF BUCKEYE STATE IN PARAGRAPHS

QUANTITY OF FISH IN THE
GREAT LAKE IS RAPIDLY
FALLING OFF.

Ohio Man Has Device by Which He
Walks on Water—Other News
of the State

Cleveland, O., July 8.—For the past decade there has been a gradual falling off in the quantity of fish caught in the Great Lakes. This year, however, the nets of the fishing companies all along the chain of lakes have almost invariably been overrunning with fish when lifted. The present season promises one of the largest catch of fish recorded in many years. The usual output of the lakes for several years past has been close to 150,000, 400 pounds annually, of which Lake Erie produced over half. During the spring, 60 per cent of the catch is blue pike; white perch, herring and whitefish make up the remainder. In the summer season 80 per cent of the catch is herring, with blue pike, perch and whitefish composing the remaining 20 per cent. The success of the fishermen, who fish every day during the season, contradicts the supposition that the lake supply of fish is giving out.

Dismissed From Office.
Hamilton, O., July 8.—After a hearing, the board of public service announced that it had unanimously sustained charges of irregularity in the office of Superintendent of Public Works Harry J. Thompson, and dismissed him from office. Michael O'Connor, another city employee, who is alleged to have hauled brick belonging to the city to the premises of Thompson's brother, was also discharged.

Buckeye Walks On Water.
Bellefontaine, O., July 8.—A Belle Center sportsman, Paul Hart, has applied for a patent on a device which enables him to walk on water. The invention is to be attached to ordinary walking shoes. At Lewistown reservoir, while the water was rough, he took a hunting coat filled with shells and, with a gun, walked out on the water a distance of two miles and returned in perfect safety.

Flames Threatened Town.
Cincinnati, O., July 8.—Fire, which a time threatened to destroy the Emery candle factory at Ivorydale, a suburb, as well as vast stores of oil in tanks and the entire plant of the Procter & Gamble soap works near by, broke out from unknown causes in the main boiler room. By hard work the fire was confined to the boiler room, which was destroyed with a loss of \$100,000.

Made Sure of It.
Wooster, O., July 8.—John Nafziger, a rich farmer, tired of life and despondent because he thought his crop prospects were not as good as those of his neighbors, committed suicide at his home at Ackerman Station. To make sure there would be no failure Nafziger first took paraffin green, then went to the barn and fastened a rope about his neck and jumped.

Murder Charge Against Woman.
Lima, O., July 8.—Mrs. Ina L. Speer was held by the examining court under heavy bond on the charge of poisoning her husband. The hearing brought out sensational testimony. A half dozen neighbors testified they had seen the defendant place "something" in her husband's coffee on various occasions.

By Negro Highwaymen.
Washington C. H., O., July 8.—W. N. Carey, agent of the Pacific Express company in this city, was robbed at the point of a pistol by two colored men, who escaped with \$160 in money and 14 money orders. The robbery occurred while Carey was in the express office alone.

Clears Dick of Charge.
Akron, O., July 8.—F. A. Parmelee, state examiner, sent a statement to Senator Dick clearing him of the charge published against him. Parmelee expresses his regret at the misconstruction.

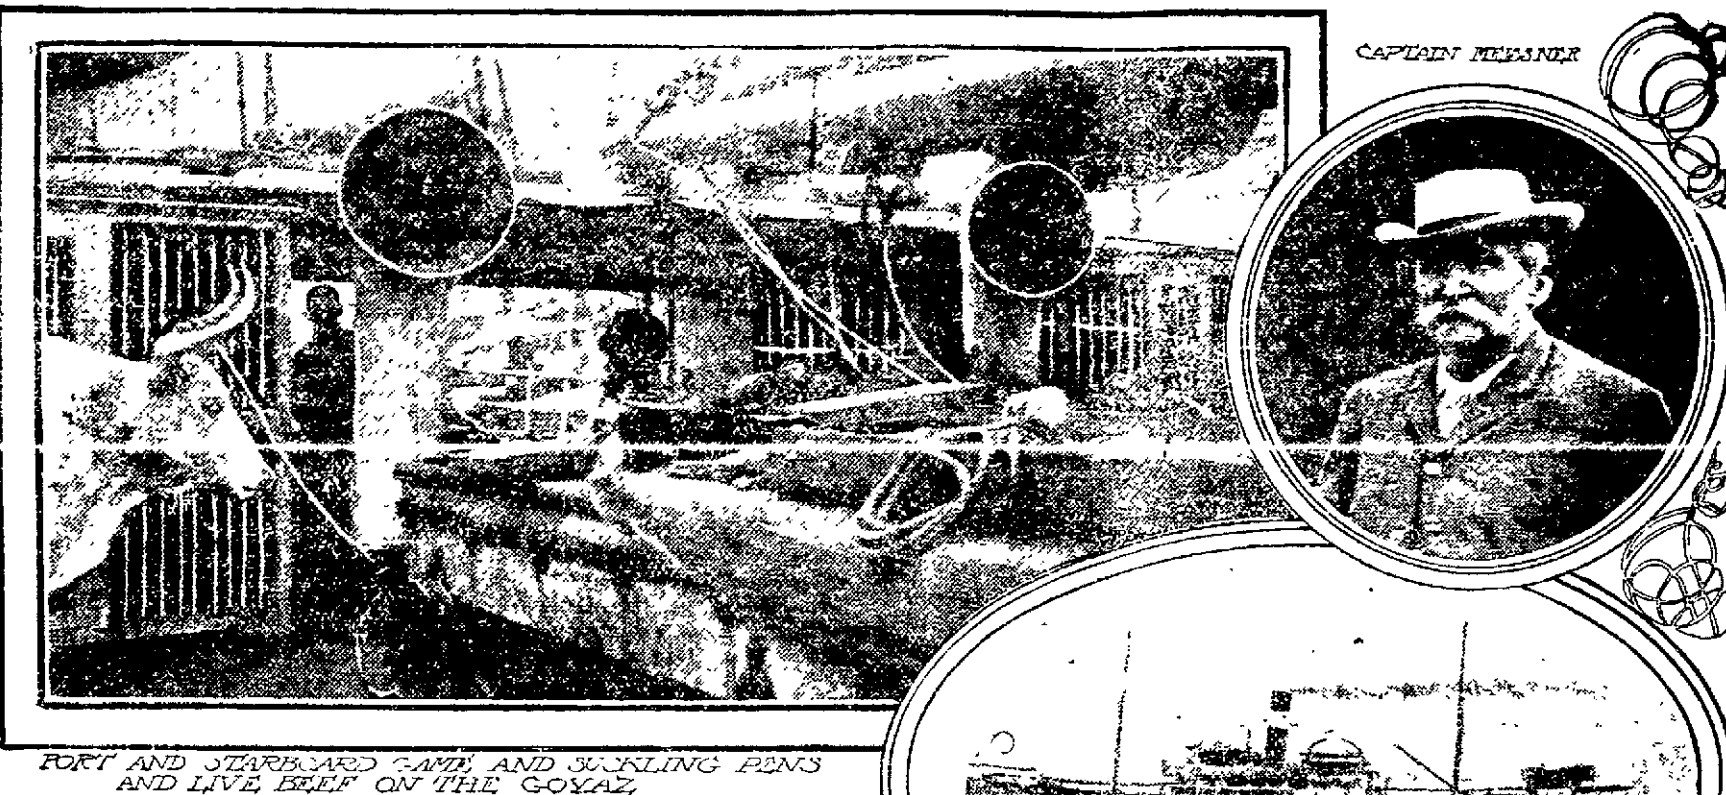

Singular Accident.
Bridgeport, O., July 8.—Torn loose by a blast, a rock weighing almost a ton was hurled against a lumber pile, which overturned upon Fred Senaker, aged 23, and he was instantly killed.

Taft For President.
Circleville, O., July 8.—The Hon. William H. Taft was endorsed for the presidency by the Pickaway county Republican central and executive committees, in joint session.

**WATCH FOR
NEWARK NUMBER
OHIO MAGAZINE**

The Ohio Magazine has just completed the first year of its existence and now enters the second year with bright prospects. It is a high class publication devoted wholly to the interests of Ohio and Buckeye people, and is ably edited by Webster P. Huntington. The July number soon to appear, is the Newark issue and

BRAZILIAN NAVAL RESERVE BATTLE SHIP WHICH IS A VERITABLE FLOATING FARM.

PORT AND STARBOARD GUNS AND SUCKLING PENS AND LIVE BEEF ON THE GOYAZ.

PHOTO BY WHITE.

will contain a half dozen illustrated articles by Newark writers. At the stockholders' meeting Saturday night the following directors of the Ohio Magazine were elected:

Congressman Wm. A. Ashbrook, Smith W. Bennett, Samuel L. Black, Warren G. Harding, Fred J. Heer, Webster P. Huntington, F. L. Dushman, Guy E. Newark and Amor W. Sharp.

The board organized at once by the election of Mr. Bennett as president; Mr. Huntington, vice president and managing editor; Mr. Heer, treasurer, and Charles S. Magruder secretary.

REV. H. S. BIGELOW SPEAKS TUESDAY

CINCINNATI MAN TO TALK OF
INITIATIVE AND REFEREN-
DUM AT COURT HOUSE.

Citizens of Newark Are Invited to
Attend Meeting and Hear Splen-
did Address.

Rev. Herbert S. Bigelow of Cincinnati will address the citizens of Newark in the convention room of the court house Tuesday evening at eight o'clock on "The Initiative and Referendum." In view of the fact that the Legislature at its next session will probably enact this measure into a law, the subject is one of vital importance and one with which all citizens should be acquainted. Mr. Bigelow has lately spoken before the legislatures of a number of states and besides being an eloquent speaker is thoroughly informed. It is hoped that every citizen who can will avail himself of this opportunity to hear the subject discussed. Committee: Carl Norpell, Fred C. Evans, F. P. Kennedy, Roe Emerson, L. Hirschberg, W. N. Fulton, T. B. Fulton, E. M. P. Brister, J. A. Flory, C. L. V. Holtz, Wm. L. Prout, Edward Kibler, I. M. Phillips, L. C. Russell, C. C. Forry, S. L. Vermilion, M. R. Scott, J. F. Hartshorn, L. C. Sparks, S. H. McCleery, J. W. Hursey, Smith L. Redman.

AUTO TOURISTS HERE JULY 18TH

HUNDRED FINE MACHINES TO BE
IN CONTEST ON 1570 MILE
TRIP.

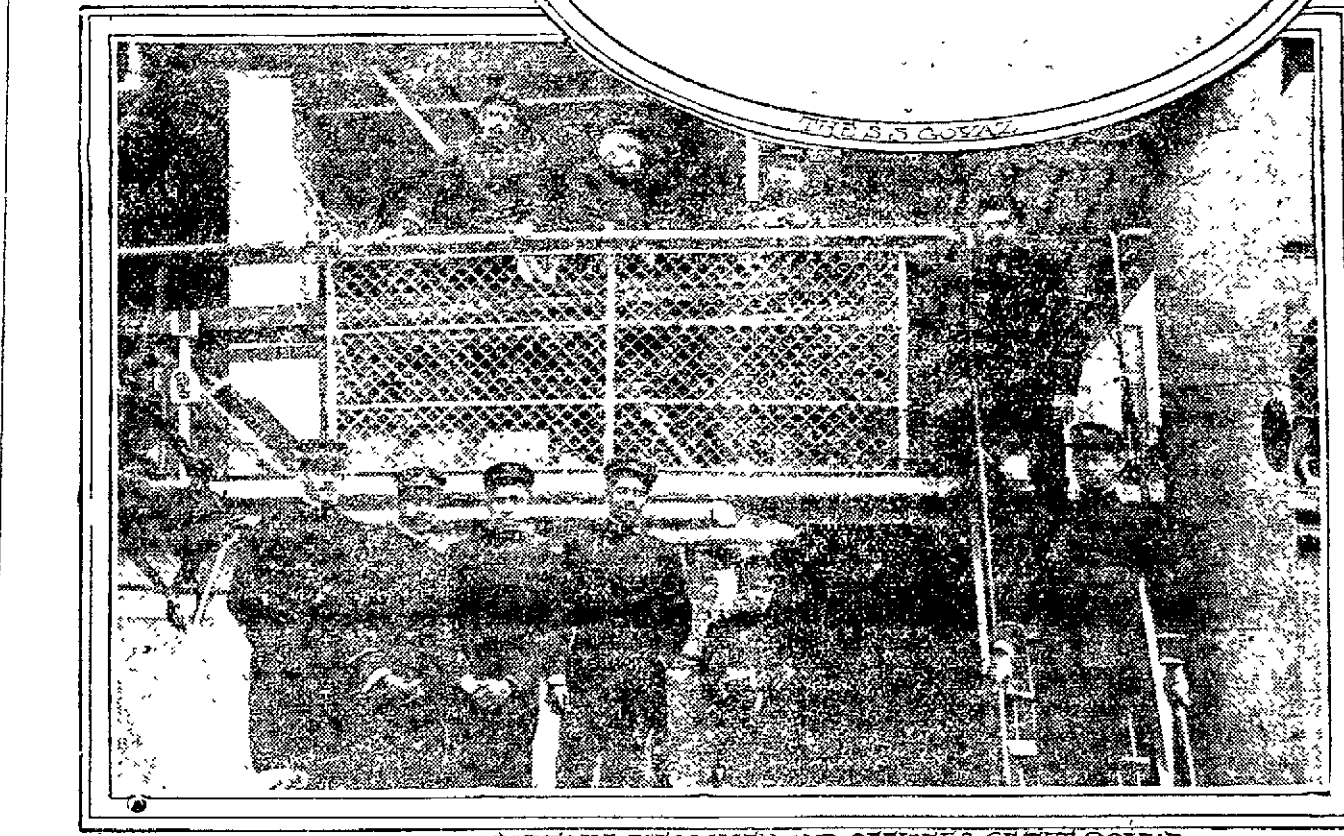

Million Dollars Represented in Auto-
mobiles in the Glidden Tour
About to Start.

The automobile tour for the Glidden and Homer trophies, which will cover 1570 miles, running from Cleveland to Toledo to South Bend, Ind., to Chicago, Ill., back to South Bend, to Indianapolis, to Columbus, to Newark to Canton, to Piquette, Pa., to Bedford Springs, Pa., to Baltimore, Md., to Philadelphia, and then to New York City, will pass through Newark on Thursday, July 18.

During a similar tour last year, which went through Canada, the participants of the country through which the tour passed, owing to unusual weather, made the day a holiday and the towns were decorated, all signs and notices being closed. Who one is to think that the enormous amount of \$1,000,000 is represented in machines on the tour, it is no wonder that a holiday is put to it.

As there will be about 100 automobiles on the trip, passing at intervals of from one to three minutes, all householders and farmers along the road traversed are requested to keep all dogs, chickens and barnyard animals from the highway, as the participants in the tour have no desire to hurt anything.

Don't think that piles can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

CAPTAIN MESSNER AND OFFICERS OF THE GOYAZ.

New York, July 8.—One of the newest of the new fleet of naval reserve steamships that the Republic of Brazil has placed in her merchant marine is now lying at her pier in South Brooklyn, and her commander, Captain Messner, is almost as popular a figure in his own land as Admiral Dewey is in this. His vessel,

CHILDREN TO ENJOY PLEASURES OF CAMP

Ruth Memorial Camp Near Utica Is
Soon to Open for Summer—Ep-
worth League in Charge.

Twelve little girls will enjoy outdoor life this week at the Ruth Memorial camp, near Utica, established three years ago by J. S. Dodd, as a memorial to his wife and daughter, who perished in the Iroquois fire in Chicago.

The camp is in charge of the Columbus Epworth League. Plans have been made to send each week a dozen small girls to the camp, where they will have all the joys and delights of the open air.

There are two dormitories at the camp and each small camper has her own single bed. The rising hour is 5:30 o'clock. A pretty custom is the salute of the flag, the first thing in the morning. Then comes breakfast. Play hour follows with dinner at noon. In the afternoon for an hour and a half, there is more play.

The children are then arrayed in their best clothes and remain "dressed up" until after supper. Another salute to the flag and then, tired from their day's play, the small girls are tucked away in their beds.

Small boys from the poorer homes are also looked after by the Epworth League. Many places have been secured for them at farm houses.

ST. LOUISVILLE WINS DEBATE FROM HOMER

Homer, O., July 8.—On Friday evening a debate between the team from the St. Louisville school and the team from St. Louisville, a great deal of interest was caused before hand and the debate was a very interesting one. The subject of the debate was "The necessity of the society William Wright, acted as chairman, the reader chairman, Mr. Williams, acted as the opponent. The question discussed was "Resolved, that the signs of the times indicate the downfall of the United States government." The affirmative was upheld by Messrs. Coffman, Moxley and Riley from St. Louisville, and the negative by Messrs. Waggoner, Williams, E. R. Wright and Herbert Long. The question was very pleasantly and profitably discussed and every one present felt well paid for coming to hear

the Goyaz is the gem of the 50 modern merchantment of the Lloyd Braziliere.

Passengers on the Goyaz are awakened in the morning, not by whistles, not by the steward's bell, not by the breakfast gong or the electric bells in their staterooms, but by the crowling of the roosters, the gobble gobble

of the turkeys and the lowing of the cattle forward on the main deck. Incidentally there is the snoring of the suckling pigs and the bleating of lambs, for all the poultry and meat served on the Goyaz is fresh killed, the eggs are fresh laid every day and the milk is caught in buckets by the ship's "farm hands."

W. A. ASHBROOK HAD A BIRTHDAY

Which Was Fittingly Celebrated at
Johnstown—Other News of the
Thriving Village.

Johnstown, O., July 8.—The 40th birthday of Hon. Wm. A. Ashbrook last week was made memorable by a reception given at his home to his

partners in business, together with his employees and their wives. Those present were his parents, Mr. and Mrs. Wm. Ashbrook Sr., H. B. Rasher and wife, F. J. Neely and wife, H. L. Johnson, R. L. Patton and wife, B. F. Carter and wife, F. D. Baker and wife, Miss Nina Harris and C. L. McCracken and wife of Croton. Five others were expected but were absent on account of sickness, etc. An elegant supper was served, after which the evening was spent in various amusements. The evening, ab initio, was a pleasureable event in the history of those present. At a late hour after a few salutes common to those heard on a Fourth of July morning were fired in honor of the occasion, all left, wishing Mr. Ashbrook many more happy birthdays.

Mrs. J. W. Potter and daughter-in-law, Mrs. James Row, left Tuesday for Chicago where they expected to meet the former's daughter, Mrs. A. E. Green of Glenwood Springs, Colo., and Mrs. Row's sister, Mrs. A. L. Hartley of Little Rock, Ark. All together they will spend about two weeks visiting relatives and friends in Chicago.

Miss Jessie Wilcox of Newark, returned home Monday after a visit of four weeks with S. C. Howard and wife together with other relatives at Johnstown.

Mrs. Albert Lewis, who resides two miles west of town, was operated upon at the Protestant Hospital by Dr. Meens Tuesday of last week. The operation was a complete success and she is expected to make a rapid recovery.

Mr. and Mrs. John Glynn of Concord, N. H., still in Newark where they have been the past two weeks. Mr. Glynn is taking treatment of Dr. Corkwell. He is reported as making a nice recovery.

The many friends of Harry Wolfe of Newark who have been suffering from typhoid fever for so long, are glad to learn of his improved condition, he being able to sit up a little while at a time. It is hoped that his recovery will be rapid.

The clerks and treasurers of the

the Goyaz is the gem of the 50 modern merchantment of the Lloyd Braziliere.

Incidentally there is the snoring of the suckling pigs and the bleating of lambs, for all the poultry and meat served on the Goyaz is fresh killed, the eggs are fresh laid every day and the milk is caught in buckets by the ship's "farm hands."

The judges gave their decision in favor of the affirmative. An invitation was given the Homer team to go to St. Louisville for a contest in debate some time in the near future.

Granville, O., July 8.—Mrs. W. H. Jones of Mt. Vernon, who has been visiting her father, Rev. F. C. Wright at his home here for a short time, returned home Monday after having had a very enjoyable visit.

Mr. and Mrs. C. M. Holler, of Lima, O., who have been visiting in Granville and vicinity for the past week, returned home Monday morning.

Ruth and Winifred Green, daughters of Mr. T. F. Green, of Columbus, are visiting relatives and friends in Granville and vicinity.

E. E. Norris and Philetus Wright were the guests of J. A. Norris Sunday.

BIG GAS WELLS

Two of the Largest Ever Drilled in
Licking County Have Just
Come In.

Two of the largest gas wells ever drilled in this county came in on the John Smith and Willis Channell farms, three and a half miles north of Granville, on Saturday, and in consequence great excitement exists in Granville and all the immediate country north of the village. The wells are each good for 6,000,000 feet or more of gas and were drilled in by the Central Ohio Fuel company.

Idaho has nearly 5,000,000 acres of land under cultivation. The irrigated area reaches over 1,600,000 acres.

BEING MARRIED IS AN OLD STORY FOR THEM

Mansfield, O., July 8.—Lettie Coulter Stewart Delaney of Shelby, has just become the wife of Henry Lape. She is his fourth wife and the three others are alive.

Mrs. Lape No. 4 has one former husband in the Mansfield reformatories. He committed bigamy to marry her. Two others are dead. Remarking that being married is getting to be an old story, Lape and his wife went to a justice to be united.

Board of Managers of the Baptist Young People's union selected Cleveland, O., as the place for holding the seventeenth annual convention next July.
